Will Rogers Remarks:

RAVENNA (Neb.)

April 3.—[To the Editor of The Times:] Just returning from a very successful educational lecture tour of entire Northwest.

No English lecturers had been in there to spoil it. They can't make railroad fare to go that far away.

Not even a political speaker had publicly insulted their intelligence lately. Politics is dead there. Their only interest in any foreign affairs is in the Ford and Chaplin trials. They are too near Canada for prohibition to be an issue, and so far away from Washington that they wouldn't care if Upshaw was President.

Yours for outside information, WILL ROGERS.

WILL ROGERS.

PLOT SEEN IN MURDER OF WILKINS

Mexican Officials Think Engineer's Slaying Move to Embarrass Calles

MEXICO CITY, April 3. (AP)—Belief that Edgar M. Wilkins, American electrical engineer, was kidnapped and deliberately murdered last week by a plot by enemies of the government of President Calles was expressed today by government officials.

They say that Wilkins' murder by outlaws, when their demands for \$20,000 were refused, was a move to embarrass Calles by a plot carried out to embarrass the present Mexican government.

A carefully selected group of secret service men under personal instruction from President Calles has gone to Guadalupe, near which the kidnapping was planned, to scour every mile of the region.

The American Embassy yesterday delivered a note to the Mexican Foreign Office requesting the capture and punishment of the murderers.

Advices reaching the United States Embassy at Mexico City from Guadalupe, where Wilkins' body was taken after it had been found Friday, indicated that the engineer was killed four or five days ago.

RECORD SET FOR RICHES

Million - Dollar Campaign Grows in Fierceness

Tax Returns Show 1925 Ahead of War Years for Great Personal Earnings

Two Hundred Seven Yearly Receive From \$1,000,000 to More Than \$5,000,000

WASHINGTON, April 3. (Exclusive)—Industrial prosperity soared to its highest peak in history in 1925, with the possible exception of 1926.

An analysis of the first income-tax returns filed under the present law in March, 1926, for earnings of 1925, made possible today by the Internal Revenue Bureau showed the greatest number of incomes in excess of \$1,000,000 on record.

Even the war years, when enormous fortunes were made, were surpassed.

Whether or not 1926 set another record will not be known for another year when similar statistics relating to returns filed last month for 1926 earnings are made available.

Incomes in excess of \$1,000,000 in 1925 numbered 207, which was more than in 1914, when American manufacturers reaped a harvest in supplying munitions to European nations.

The number was nearly three times the average of the years 1922, 1923 and 1924. The total of million-dollar incomes in 1925 was 204.

The number dropped to 141 in 1921; sixty-seven in 1918; sixty-five in 1919; thirty-three in 1920; twenty-one in 1921; sixteen in 1922; seventeen in 1923, and twenty-five in 1924.

Of the 207 incomes in excess of \$1,000,000 in 1925, 104 were between \$1,000,000 and \$1,500,000; forty-three between \$1,500,000 and \$2,000,000; twenty-nine between \$2,000,000 and \$2,500,000; fifteen between \$2,500,000 and \$3,000,000; and seven above \$3,000,000.

The number of incomes in excess of \$500,000 also showed a record in 1925. Incomes between \$500,000 and \$1,000,000 almost doubled in 1925, rising from 478 in 1924 to 943 in 1925.

The number of incomes in excess of \$250,000 also showed a record in 1925. Incomes between \$250,000 and \$500,000 rose from 1,113 in 1924 to 1,813 in 1925.

The number of incomes in excess of \$100,000 also showed a record in 1925. Incomes between \$100,000 and \$250,000 rose from 3,937 in 1924 to 5,937 in 1925.

The number of incomes in excess of \$50,000 also showed a record in 1925. Incomes between \$50,000 and \$100,000 rose from 11,113 in 1924 to 18,113 in 1925.

The number of incomes in excess of \$25,000 also showed a record in 1925. Incomes between \$25,000 and \$50,000 rose from 39,371 in 1924 to 59,371 in 1925.

The number of incomes in excess of \$12,500 also showed a record in 1925. Incomes between \$12,500 and \$25,000 rose from 78,742 in 1924 to 118,742 in 1925.

The number of incomes in excess of \$6,250 also showed a record in 1925. Incomes between \$6,250 and \$12,500 rose from 157,484 in 1924 to 237,484 in 1925.

The number of incomes in excess of \$3,125 also showed a record in 1925. Incomes between \$3,125 and \$6,250 rose from 314,968 in 1924 to 474,968 in 1925.

The number of incomes in excess of \$1,562 also showed a record in 1925. Incomes between \$1,562 and \$3,125 rose from 629,936 in 1924 to 949,936 in 1925.

The number of incomes in excess of \$781 also showed a record in 1925. Incomes between \$781 and \$1,562 rose from 1,259,872 in 1924 to 1,899,872 in 1925.

The number of incomes in excess of \$390 also showed a record in 1925. Incomes between \$390 and \$781 rose from 2,519,744 in 1924 to 3,799,744 in 1925.

The number of incomes in excess of \$195 also showed a record in 1925. Incomes between \$195 and \$390 rose from 5,039,488 in 1924 to 7,599,488 in 1925.

The number of incomes in excess of \$97 also showed a record in 1925. Incomes between \$97 and \$195 rose from 10,078,976 in 1924 to 15,198,976 in 1925.

The number of incomes in excess of \$48 also showed a record in 1925. Incomes between \$48 and \$97 rose from 20,157,952 in 1924 to 30,397,952 in 1925.

The number of incomes in excess of \$24 also showed a record in 1925. Incomes between \$24 and \$48 rose from 40,315,904 in 1924 to 60,795,904 in 1925.

NIGHT RAGES IN CHICAGO

Racial and Religious Issues Placarded Over City for Church-goers

Governor Prepared to Send Troops and Police Take Extra Precautions

BY J. P. GALLAGHER

"Times" Staff Correspondent

CHICAGO, April 3. (Exclusive)—The widest majority fight in the history of Chicago grew fiercer, if anything, today, and the Sunday election, instead of the usual lull, found the battle raging with increasing intensity with the assurance that it will rage right up to Tuesday's polls.

The usual pre-election statements continued to fly about today, the former Mayor's managers asserting Big Bill will pull through with more than 100,000 plurality, while Mayor Dever's managers say he can be expected to carry every ward but the south side negro wards and, instead, whispering the winning plurality as 184,000. Even the Independent candidate, insist he has a chance, but they won't say so.

The racial and religious issues came more and more into the open. Starting as "whispering campaigns," they became an open parade today, and instead of the usual lull, the rival camps used the amplifiers.

CITY PLACARDED

Over Saturday placards, cartoons, and lampoons, mostly anonymous, flooded the town. Some of them were printed by the millions. Today they were passed out to the Sunday church and theater crowds. They dealt chiefly with the question of the colored vote. The race question became a leading issue following the night of March 13, when at a Thompson meeting at the Eighth Regiment Armory, which is situated in the heart of the "black belt," Big Bill and his supporters were seen in the crowd.

Each side accused the other of trying to rig the election. The "black belt" was the center of the controversy. The "black belt" was the center of the controversy. The "black belt" was the center of the controversy.

Scanty Dress Deals Blow to Baggage Men

WASHINGTON, April 3. (AP)—Hard times have arrived for Washington baggage men.

Mildred's traveling garments have become so abbreviated that trunks are no longer a necessity and motor tourists simply pile their luggage in their vehicles.

Holding that these two circumstances have come about and blaming them for a steady decline in its business, the Union Transfer Company, concessionaire for baggage hauling at Union station here, has asked the District of Columbia Public Utilities Commission to sanction an increase in its rates.

DAM IN RAIN AREA AGAIN HOLDS FIRM

Vallejo Project Stands Second Rush of Torrent; Downpour in North Ends

SAN FRANCISCO, April 3. (Exclusive)—For the second time in the last forty-eight hours the Vallejo Municipal Dam, impounding 3,000,000 gallons of water at the head of Gordon Canyon, six miles from Cordelia, was pronounced out of danger again this morning after a night battle to prevent its collapse.

Enormous heads of water coming down out of the mountains backed up against the barrier in such quantities that fear was felt that the structure would be carried away.

Diversion of the water through a creek bed into Suisun Bay again stayed off the threat this morning when the rain ceased.

Efforts now are under way to repair the foot which has been washed away Friday night.

Main which has fallen intermittently throughout the night, and the rain ended the following morning.

PARIS HUNTS FOR CAROL

Rumania Flight Rumor Heard

Prince Leaves Home in Auto With Nine Companions; Goes Toward Border

Telegram From Bedside of King Brings Action; Frontier Notified

PARIS, April 3. (AP)—News from the Balkans that King Ferdinand of Rumania is gravely ill today was followed by the sudden departure of his son, Prince Carol, former Crown Prince, from his home in Neully, where he has been living since he renounced rights to the throne in 1925.

Carol slipped away at 4:35 a.m. through the deserted streets of Neully for an unannounced destination but later it was reported that he had boarded an airplane at Le Bourget. This immediately gave rise to rumors that he was flying to his father's bedside or at least to some point near the Rumanian frontier in an effort to see him.

It was not very long before the Prince was accompanied by nine friends in his unannounced but apparently well-planned departure. Five of them drove with him in his automobile while the four others followed in smaller cars. A few hours after one of these friends telephoned Paris police notifying them that the Prince had left Neully. Long ago Carol gave the prefect of the Paris police his word of honor that he would let him know each time he quitted the Paris region.

The automobile in which the departure was made carried considerable baggage and the Prince wore a heavy leather traveling coat, although it was not very cold.

The guard of detectives which normally watched the Prince's home was doubled in recent days when a rumor that Carol was preparing to leave Neully became more persistent. Apparently, however, he left without their following him.

Whether Prince Carol took Mme. Lupescu, with whom he has been living in Neully, could not be learned. The blinds of the house were drawn this evening and the Prince's movements were not observed.

The Prince's departure was not unexpected. He has been in the country for some time, and his movements are not closely watched.

Rumania King Now Reported in Last Hours

PARIS, April 3. (Exclusive)—From reliable sources tonight comes the news that King Ferdinand of Rumania is so near death that the end is expected momentarily.

Extreme unction was administered this morning when his doctors and surgeons and the Belgian radiologist, Dr. Sluys, decided that his body, seared by cancer, its functions impaired by the artificial devices made necessary by the cancer's inroads and his vitality sapped by long illness, could not hold out much longer.

Premier Avercy is preparing for a coup d'etat to establish a combination dictatorship and regency similar to that set up by Admiral Horthy in Hungary, the Paris newspaper Le Matin will say tomorrow in a story from its special correspondent in Bucharest.

PARIS, April 3. (AP)—News from the Balkans that King Ferdinand of Rumania is gravely ill today was followed by the sudden departure of his son, Prince Carol, former Crown Prince, from his home in Neully, where he has been living since he renounced rights to the throne in 1925.

Japanese Forces in Battle With Hankow Rioters to Save Citizens

SHANGHAI, April 3. (AP)—American bluejackets from the U.S.S. Monocacy on board the American steamer Chinan today fired with machine guns on a mob of Sampan coolies who were trying to take possession of the steamer, says a radio dispatch from Chungking. Three members of the mob were wounded.

According to Japanese naval wireless reports from Hankow, Chinese mobs, led by Communists, overran the Japanese concession today, forcing the landing of Japanese mar

# CHANG OFFERS PROOF THAT LEATHERNECKS BOUND FOR SHANGHAI

## REDS RULE CANTONESE Marines Spoiling for Action in Oriental Trouble Zone

### Manchuria War Lord Gets Soviet Mail to Show How Moscow Directs China Revolt

Copyright, 1927, by United States Coast Service and all other countries by North American Newspaper Alliance.

PEKING, April 3. (Exclusive)—The capture of soviet diplomatic pouches containing dispatches from soviet officials to Borodin, Russian adviser of the Cantonese government, was announced today by Marshal Chang Tso-Lin in an exclusive interview in which he cited his proofs of soviet participation in the Chinese Nationalist movement.

"There also are several letters in the soviet embassy conducted to Chinese. One is a copy of a resolution adopted by some workers' committee of soviet at Vladivostok, pledging our wholehearted support of the Chinese revolutionary movement in its fight against British imperialism and Mukden militarism, particularly because of its financing Mukden militarism. It has been translated into Chinese for transmission to southern authorities in a diplomatic pouch.

"The Pami Lenina is the second Russian steamer we have seized. A year ago during the struggle with Feng Yu-hsiang for possession of Tientsin, we seized the soviet boat Ching, carrying munitions to Feng. All officers on that boat are now in prison. Other instances of Russian meddling are too numerous to specify. The world should know that all the officers of the Cantonese army were trained by Russians employed by Chang Kai-Shek in the Whampoa Academy of Canton.

Among other evidences related by the Manchuria war lord were the seizure of the soviet boat Ching, carrying munitions to Gen. Feng Yu-hsiang; the training of Nationalist officers by Russian officers; the seizure of Yang-Cho, one of Chang's own officers, for accepting Russian money to stir up strikes along the Chinese eastern railway; and documents seized from radical students in close touch with the soviet embassy. Chang Tso-Lin has just received a dossier of the documents seized with the three Russian diplomatic couriers and Mrs. Borodin on the soviet steamer Pami Lenina, at Nanking last month. Most of them are in Russian and are addressed to Borodin from the soviet embassy at Peking.

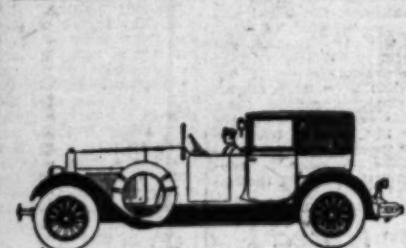

**CANTONESE ADVISER**  
"They're not yet been completely translated," he said. "They don't seem to be very important, being for the most part reports of the northern situation and extracts from the vernacular papers for Borodin's information. But they dispose of the assertion that Borodin is an unofficial adviser of the Cantonese. These documents simply prove he is a soviet government agent, for the documents forwarded by the soviet embassy were in diplomatic pouches.

**GENERAL EXECUTED**  
"But I will confine myself to recent instances. In the Harbin we had to execute one of our generals, Yang-Cho, who was senior-general of the Chinese Eastern, when he was found to be in Russian pay, engaged in fomenting strikes on the railway in the Russian interest. A week ago the police in Peking rounded up radical student leaders in close touch with the soviet embassy. In their houses were found documents giving details of conferences

with the soviet embassy. I am fighting a world menace in Bolshevikism. Russia and Lloyd George may think lightly of its effect in China, but I have it at my door and even in my house. I am asking the powers through their ministers at Peking to warn Russia against this world menace.

**FORCED INTO IT**  
Although he had never played a game of golf in his life, Bob Smith of Portland, Or., was elected president of both the Rose City Golf Club and the Alderwood Country Club. Now he plays a fine game.

week, was still in progress, the occupation of Peking, northwest of Nanking, being confirmed.

Following is the text of the statement issued by the American Chamber of Commerce:

"Military, brigandage and Bolshevik law and order in the greater part of China and have brought about conditions where life and property, business of Chinese and foreigners, are in constant danger from mob violence, military terrorism and, unrestrained individual criminals.

"Repeated assurances of military and other spokesmen of political factions that they can and will protect life and property are irreconcilable with the actual conditions existing in the greater Yangtze Valley.

"The mass of conservative and law-abiding Chinese, reduced to a state of helpless intimidation, is unable to take effective measures to protect either themselves or foreigners.

"The adoption of a conciliatory policy by foreign governments has merely strengthened the lawless elements and encouraged outrages like that at Nanking.

"We strongly endorse the decision of the United States government to take adequate measures for protection of United States lives and property as evidenced by the landing of marines at Shanghai and the announcement that additional forces were en route. It must be borne in mind, however, through unscrupulous propaganda, designed to inflame the Chinese masses against foreigners, business men and missionaries alike, hostilities have been created causing withdrawal of hundreds of Americans from treaty ports and interior places and desertion to the mob of millions of dollars of American property.

"Of all the cities in the Yangtze Valley Shanghai alone is comparatively safe for foreigners. This is due to no consideration on the part of these Chinese inflamed by Bolshevik propaganda, but entirely to presence of foreign warships and military.

"It is obvious that a protective policy of shielding to Shanghai alone will not enable China to put its house in order or prevent enormous losses resulting from evacuation of the interior districts. We are convinced that the future welfare of the Chinese and the ultimate safety of Americans and other foreigners can be attained only by unified action of the powers to suppress disorder and restore conditions favorable to the formation of a responsible government.

**DEASTIC ACTION URGED**  
"We believe that immediate, concerted action of the powers to restore the security of foreign lives and property at the treaty ports and to recover all foreign property destroyed or confiscated will have a far-reaching influence throughout China and be of ultimate benefit to the Chinese. This result should not be difficult with the naval force now in China waters.

"In our opinion the future peace of the world and the welfare of the Chinese people would be best served by maintenance of the alignment of powers established by the sub-Washington treaties and their co-operation in the service pledged to China during the Washington conference.

**WASHINGTON FEARS FOR AMERICAN LIVES**  
WASHINGTON, April 3. (AP)—Grave anxiety over the plight of Americans still widely scattered in the interior of China, apparently was still holding back any official disclosure of steps the Washington government is preparing to take for extraction of reparations for the Nanking outrages.

Overnight advice from China showed no material change in the general situation. Another shipment of American refugees from Hankow for Shanghai was reported by Consul-General Lockhart; development of a seaman's strike at Amoy was noted in another message and some official reports indicated that tension had relaxed slightly in one or two outlying treaty ports.

Meanwhile, the tide of civil war is still rolling northward from Shanghai, fringed with the Cantonese advance guard of propaganda and agitation that has proved to be more serious in fomenting foreign fear and property than has actual armed conflict between the Chinese factions.

Within the last week, extension of the battle zone into the Shanghai Province and of the propaganda and agitation zone into Hien-tsin, and even into Peking itself, has served to heighten official apprehension confined entirely before to the Nationalist-controlled territory in the Yangtze Valley.

Throughout all discussion in Washington of the Nanking incident, the thing that has prominently thrust itself forward despite official silence, is the fact that the Washington government still is preoccupied mainly with the problem of extricating from interior China Americans, nearly all of them missionaries, and many of whom have refused thus far to leave their posts.

Every recourse of diplomacy has been invoked by the Washington authorities themselves and by diplomatic and consular officers in China to persuade Americans to withdraw from the danger zone to points on the coast, where it is physically possible to afford them naval protection. Foreign service officers in China also have sought to insure withdrawing Americans safe conduct and to that end have been continually negotiating with whatever military or civil authorities they found in power in each locality.

If the State Department has at this time any authoritative knowledge as to how many Americans remain exposed to danger in the interior, where they would be at the mercy of any outbreak of anti-foreigner sentiment, it has not disclosed the fact. On the contrary, there is every indication that it does not know and that its representatives in China have been unable to find out in any accurate way due to deficient communication and generally disturbed conditions throughout the great spreading area involved in the civil strife.

Reports last week from Peking and Shanghai that Chan Kai-Shek, dominating military figure of the Nationalist party up to this time, has been ousted by radical elements of the party, added to the difficult problem of the Washington government in deciding upon a course of action regarding the Nanking incident, which

Rarin To Get There

# CHANG GIVES WAY TO RIVAL

## Cantinese Leader Announces Wang Ching-Wei Will Direct Affairs of Government Henceforth

SHANGHAI, April 3. (AP)—Gen. Chang Kai-Shek, Cantonese generalissimo, today made what is regarded as a political maneuver to strengthen his position in the Kuomintang, or People's Republican party, with whose civil wing he has been reported at odds.

The maneuver came shortly after return from Europe today of Wang Ching-Wei, former chairman of the executive committee of the Kuomintang, who left Canton last year, ostensibly because of ill health, but really, it is believed, because of disagreement with Gen. Chang, who objected to his radical sympathies. Wang's recall has been urged for some time past by the left-wingers of the Kuomintang.

After conferring with Wang today Gen. Chang issued a circular telegram to the provinces under Nationalist control, declaring that henceforth he would confine himself to commanding the Nationalist expedition against the northern forces, leaving the business of government under Wang's direction.

This move has been interpreted as the part of Gen. Chang to strengthen his position by obtaining the support of Wang, whose seniority in the Kuomintang makes him the logical heir to the political power of Dr. Sun Yat Sen, the late Republican leader. Wang enjoys the respect of both factions, but entirely to presence of foreign warships and military.

**DIMINISH OF CHANG REPORTED IN HANKOW**  
(Copyright, 1927, by the New York Times.)  
SHANGHAI, April 3. (Exclusive)—Hankow reports tonight the dismissal of Chang Kai-Shek, Cantonese commander-in-chief, has been promulgated. The reason given was that he had not obeyed Nationalist orders and attempted independent administration.

**PATENT MEDICINE MAKER AMASSES GREAT FORTUNE**  
NEW YORK, April 3. (AP)—Elden C. Dewitt who, as a young drug-gist, started manufacturing patent medicines in Sioux City, Iowa, some fifty years ago, had accumulated a fortune of \$60,000 when he died at his home in Seaside, Calif., at 29, the New York Herald-Tribune says.

He had shunned publicity all his life and his wealth never had been estimated at more than a few millions during the twenty years he was manufacturing patent medicines in New York.

Dewitt was owner of the E. C. Dewitt Company of this city and held large interests in a Canadian ginger-ale company in addition to many securities. He bequeathed a life interest in the entire estate to his widow, Mrs. Dewitt, a vice-president of the Dewitt company. He had no children.

**TWO MISSING ON LOST MAIL PLANE**  
(Continued from First Page)  
Transport Company last night expressed grave fears for the safety of Pilot Eddie Neher and A. Schaller, office manager of the company, reported lost with a northbound mail plane last seen over Chowchilla about 8:30 a.m. yesterday, and dispatched three planes from the Angeles Mesa field to assist in the search.

According to A. B. Wiser, a Pacific Air Transport Company official, the plane left Los Angeles with three registered mail sacks and three airmail bags at midnight Saturday. It made scheduled landings at Bakersfield and Fresno, he said, and then disappeared after its passage over Chowchilla was noted.

In addition to the trio of Los Angeles planes which took the air in the search, commercial flyers from Fresno and aviators from Oriskany Field, San Francisco, are on the search, according to dispatches. Neher and Schaller are both of San Francisco.

# CHICAGO FIGHT WAXING FIERCE

## (Continued from First Page)

what for the better," said the Sheriff, "but I am not prepared to say that the police will be able to make the presence of troops necessary."

Chief of Police Collins, who refuses to become excited over the Sheriff's message to Gov. Small, reiterated today that he feels confident peace and order will prevail without the calling out of the National Guard, which the Chief pointed out never has been used in the history of Chicago elections.

Despite his calmness, however, Chief Collins declared that he is taking no chances. Every available man, gun and automobile will be on the job in double shifts, with special guards at points where trouble is likely to develop. Final orders will be issued to squad leaders at a special meeting Monday evening.

By way of preparation, Deputy Chief of Detectives took five of his crack squads to Grant Park yesterday and put their new machine guns to a test firing half a dozen drums of bullets into the lake. Thirty-five of the rapid-fire weapons will be distributed among the 100 squads of five men each who will range the city in search of gangsters and hoodlums.

Ten squads will go on duty at 5 p.m. Monday and work until 8 a.m. Tuesday, an hour before the polls open, when the main force comes on. A special effort will be made to arrest suspects before 8 a.m. to prevent their activities during the day.

At 8 p.m. a reserve force has been provided with instructions to prevent disorders. Special squads will patrol the black belt.

**ANNOUNCE RED CROSS FIRST-AID INSTITUTES**  
WASHINGTON, April 3. (AP)—First aid and life-saving institutes will be conducted again this summer by the American Red Cross as a part of its program to reduce the death toll from drowning and other causes.

The course will include the following places: Tampa, Fla., May 16-28; San Diego, Cal., June 2-11; Capitola, Cal., June 16-23; Seattle, Ore., June 16-23; and the Camp Fire Girls Camp, Spanish Island, Saginaw, Mich., July 9-14.

# MARINES WAIT FOR TRANSPORT

## (Continued from First Page)

more than 500 marines to the local base. With the arrival of the six additional trains today and tomorrow, the total will be swelled to 1700 and the marine base will be filled.

Plans are under way to transfer some of the marines aboard the Henderson to relieve the crowded condition expected at the marine base. When Col. Snyder arrived today he was met by Lieut.-Col. W. H. Pritchard, commanding the marine base, and the two officers completed plans for mobilizing the marines at the base.

A new transcontinental speed record for the run from Philadelphia to San Diego was established when the marine special train No. 3 pulled into the Union Depot here less than four days after it left the Quaker City.

Under command of Maj. A. B. Miller the fifteen officers and 110 men on the train left Philadelphia last Wednesday afternoon at 1:15 o'clock. Stops were made twice a day to give the men exercise and there were no other halts except those made necessary for engine changes.

**DUCE GIVEN SOLDIERS BOOKS**  
ROME, April 3. (AP)—Premier Mussolini has presented 174 volumes from his own private library as a nucleus of libraries being founded for the Fascist militia employed in Libya.

MONDAY MORNING, APRIL 4, 1927.  
would afford Americans still in China the greatest promise of safety.  
No official word of Chang's dismissal has been received from American observers in China so far as is known. His removal from control of the Cantonese forces in the coastal regions would increase anxiety in Washington, however, since he has been consistently moderate in his attitude regarding foreign interests in China.

Like all other military or political leaders of either faction, Chang has insisted that China's unequal treaties must be done away with. He has always added, however, that the Nationalist government proposed to negotiate equal treaties to supplant existing ones that are one-sided and did not intend to abolish present treaties by force of arms.

**JOINT NOTE IN SIGHT**  
OVER NANKING DISORDER  
LONDON, April 3. (AP)—Great Britain, which has been carrying on communications with Washington and Tokyo concerning the Nanking disorders on March 24, continued its exchanges over the week-end and there was a confident belief tonight in official quarters here that a short time a joint note will be presented to the Cantonese authorities.

This note, it was indicated, would require an apology and reparations for the Nanking incident and guarantees for the future.  
All information reaching the government not only from consular sources, but also from Chinese witnesses, it was stated, was contrary to Nationalist declarations that more than 100 Chinese were killed or wounded for every foreign casualty.

The reports received by the government also declared that little of the foreigners' property was damaged or destroyed by the Anglo-American barrage to aid the escape of the foreigners besieged on the 26th Hill. There were only three Chinese casualties from the bombardment and no property was damaged or Chinese burned. This information said.

**STRIKE SHUTS DOWN AMOY POSTAL SERVICE**  
AMMOY, April 3. (AP)—Strikes have closed down the entire postal service of the Amoy district. Labor unrest is reported as extending throughout the Province and the heavy foreign mails from Shanghai are tied up by the strikes. Postal Commissioner Pronizetti, a Frenchman, was held prisoner in the post-office.

**FAVORED BY ATTORNEYS**  
have discussed this proposed amendment with numerous attorneys and judges, it has been well received. If the system should be adopted and found to be successful, it would be a boon to the people. At the same time the will be relieved of the obligation of expending time and money with expediency.

Change in Method of Selecting Jurists

Following if Legislature Acts Favorably

BY C. A. JONES

San Francisco, April 3. (AP)—The measure to change the method of selecting jurists in the state courts, which was passed by the assembly last week, is expected to be passed by the senate today.

The measure, which was introduced by Senator Weller, would change the method of selecting jurists from the present system of election by the people to a system of appointment by the governor.

The measure would also provide for the appointment of jurists for a term of six years, and for the appointment of a jurist to fill a vacancy in the office.

The measure would also provide for the appointment of a jurist to fill a vacancy in the office.

# GIRL MAESTRO LIKES DOLLS

Youthful Orchestra Conductor Strong on Mother Instinct

PARIS, April 3. (AP)—Mlle. Joette Trichet, an orchestra conductor at 6 years of age, much prefers to play with dolls.

Her father, a musician of talent, is her teacher. He has organized an orchestra of thirty pieces for his young daughter to direct.

"The shading was not very good," she exclaimed to her mother when they finished the Egmont overture at a recent rehearsal.

"You should have stopped them and started over again," her father advised her.

Joette called the orchestra to attention, and again Egmont was played, with more spirit, better enthusiasm. Joette was wet with perspiration when it was over.

"And now," said a new admirer, "tell us which you prefer, to direct an orchestra or to play with dolls."

"I'd rather play with dolls," she said.

# POLICE AID MOTHER IN BABY HUNT

Child Believed Given to Los Angeles Woman Who Ran Home for Infants

SAN FRANCISCO, April 3. (Exclusive)—The aid of the San Francisco Police Department was put forward today to help Mrs. Ruth M. Babbitt, 17-year-old mother, recover the year-old infant that she believes disappeared in the transactions of Mrs. Minnie Foster Hines, said to have conducted a Los Angeles "baby farm," and who was sentenced on Friday to one to fourteen years in San Quentin on bad-check charges.

Policewoman Katherine O'Connor wrote to Los Angeles authorities asking them to send a photograph of Mrs. Hines and full information about her activities, particularly any dealing she may have had in San Francisco.

The theory is that Mrs. Hines is the "Mrs. George Wahl" to whom Mrs. Babbitt turned over her 6-month-old infant on the promise that Mrs. Wahl would communicate with her once a week.

The woman was never heard from after that. Mrs. Babbitt appealed to Policewoman O'Connor several months ago to help her find the child, but no clue of any importance developed until the "baby farm" case came up.

Mrs. Babbitt thought from newspaper reproductions of photographs of Mrs. Hines and other details of the case that she might have been "Mrs. George Wahl."

CHURCHMEN TO MEET

SAN FRANCISCO, April 3. (Exclusive)—Unitarian Church dignitaries from all points on the Pacific Coast will meet here the 8th inst. for a two-day triennial session. Dr. Samuel E. Eliot of Boston, president of the American Unitarian Association and director of the International Congress of Free Christians, will preside.

All measures containing appropriations carried in the budget bill are awaiting passage of that bill through the Senate. These include the 3-cent gasoline tax to 5 cents to provide \$10,000,000 a year for ten years to complete the State highway system, as originally planned, and the fish and game license bill, which doubles hunting and fishing licenses.

Just half of the bills presented to the Forty-seventh Legislature have succeeded in getting out of committee. There have been 2133 bills introduced, 1234 in the Assembly and 877 in the Senate. Of these, 1066 have been reported out by committee, 1234 in the Assembly and 877 in the Senate. Of these, 1066 have been reported out by committee.

In the past six weeks 743 of the 1066 bills reported out of committee have succeeded in passing the house of origin. The Assembly having passed and sent to the Senate 396 of its measures and still having 221 on its files to act upon, while the Senate has sent to the lower house 347 Senate bills with 102 on the files for action.

The lower house thus has about twice as much work to do in session as the Senate. To speed up its work night sessions will be held practically every day this week by the Assembly and it may be necessary to hold Saturday sessions.

Out of the 743 bills that have passed the house of origin, 121 of them have passed both houses.

# Holidays Cloud Strike Effects in Coal Region

CHICAGO, April 3. (AP)—Miners and operators in the soft coal fields throughout the central competitive district, which has been virtually idle since the expiration of the Jacksonville agreement last Thursday, are waiting developments to determine the exact extent of the tie-up.

Both are silent concerning the situation pending activities anticipated at various middle-western conferences during the week.

Since the shutdown at midnight Thursday there has been little opportunity to determine the extent of the strike, for Friday was a miners' holiday, Saturday a half-holiday and the coal fields usually are inactive on Sunday.

It is known, however, that several operators reaching individual agreements with miners are to continue operations under an extended contract based on terms of the Jacksonville agreement pending a general settlement.

HISTORY ASSOCIATION SECRETARY SUCCEUMBS

SAN FRANCISCO, April 3. (Exclusive)—T. W. Hubbard, secretary and one of the founders of the California Historical Association, director of the California Genealogical Association and member of the American Bar Association, died in Stanford Hospital today at the age of 33 after a lingering illness. He was a practicing attorney here for many years.

# Bills Galore Boost State's Salary Total

SACRAMENTO, April 3. (AP)—There are many bills before the Legislature relating to increases in salaries in important State positions, including creation of a number of new positions. Among the new positions involved in the proposed legislation are the following:

Director of judicial council, \$12,000 a year.  
Secretary of judicial council, \$6,000 a year.  
Director of public works, \$10,000 a year.  
Director of natural resources, \$6,000 a year.  
Director of social welfare, \$4,000 a year.

Increases in salaries proposed include the following:  
Chairman of board of control as director of finance, \$5,000 to \$10,000.  
Secretary of Board of Health as director of Department of Health, \$4,500 to \$6,000.  
Chairman of Industrial Accident Commission as director of industrial relations, \$5,000 to \$6,000.  
State mineralogist, \$3,500 to \$5,000.

Executive of Fish and Game Commission, \$4,500 to \$6,000.  
Chief of Motor Vehicle Division, \$4,500 to \$6,000.  
State librarian, \$3,000 to \$5,000.  
State architect, \$4,500 to \$6,000.  
Director of Department of Institutions, \$3,500 to \$5,000.  
Corporation Commissioner, \$5,000 to \$6,000.

Four members Board of Equalization, \$4,000 to \$5,000.  
Building and loan commissioner, \$5,000 to \$6,000.  
Real estate commissioner, \$5,000 to \$6,000.  
Deputy superintendent of public instruction, \$3,000 to \$4,000.

In addition there are many measures relating to increases in judges' salaries and salaries of deputies and assistants in other State offices.

# FIND STUDENTS ARE RELIGIOUS

(Continued from First Page)

tended religious services regularly. It was on the last two questions alone that the college student has a lower percentage than that obtained in the newspaper polls.

The college polls show that probably the most radical students were those in New England colleges. Dartmouth had an answer of only 62 per cent "yes" answers on the whole set of questions, and Wellesley had 68 per cent.

The conservatism of the South in religious matters was revealed in the study of the colleges. The smaller colleges were usually uniformly conservative, although in most cases these were denominational in character.

Oberlin College in Ohio was next to Dartmouth with the lowest percentage of belief. Other colleges ranking from the lowest to the highest percentage of "yes" answers follow:

# PINEDO'S PLANE REFUSES TO FLY

Gasoline Load and Lack of Wind Halt Flight

Italian May Be Forced to Go Back to Gulf

Will Then Try for Nonstop Journey to West

SAN ANTONIO, April 3. (AP)—Commander Francesco De Pinedo, Italian aviator here on a flying tour of four continents, has decided to return to the Gulf of Mexico tomorrow if he is unsuccessful in lifting his seaplane with a capacity load of gasoline from the waters of Medina Lake here tomorrow.

The Italian ace tried unsuccessfully today to take the air for Elephant Butte Dam, N. M., his next scheduled stop on his journey westward. His plane refused to rise from the water and the hop-off was postponed.

If the plane fails, as it did today, to rise from the water when he attempts to hop off for Elephant Butte Dam, he will fly to Corpus Christi with a light load of gasoline, refill his tanks, and attempt to take off from Corpus Christi Bay on a non-stop flight to Elephant Butte.

CHANGES PLANS

After his failure today, Commander De Pinedo announced that he would try again tomorrow and, if unsuccessful, would drain some of his tanks and fly to Lake Tuzah near Pecos. The fact that the lake is small, however, and the uncertainty as to its qualities as a landing basin led him to change to Corpus Christi. At the latter city he hopes to get water that is slightly rough, so that less power will be required to break his heavy plane from the grip of the surface film.

Corpus Christi is 160 miles from here and Elephant Butte Dam is approximately 800 miles from Corpus Christi. If possible, Commander De Pinedo hopes to make both hops tomorrow.

The aviator and his assistants said the plane was in perfect condition and that the fault was due entirely to the lack of a head wind. With 600 gallons of gasoline aboard the plane weighed approximately 4500 pounds.

THREE ALL THICKS

Little trouble had been anticipated in getting the plane away from the lake, as the army's pan-American machine rose from the same lake easily, carrying almost 2000 pounds more cargo. The army planes, however, had better weather conditions and greater lifting power. It was their bipanes, whereas De Pinedo's plane has but one large wing surface.

Every trick of the flying trade was tried to break the grip of the water on the plane. The surface of the water exerts a pull on the pontoons of a seaplane in addition to the pull of gravity.

It was possible to drive the plane across the water fast enough to support it in the air, but to the high surface pull could not be snapped. His helpers rocked the plane as it tore across the water, but in an effort to release this surface tension, but without success.

Later De Pinedo drove the plane around and around a small island with his motors wide open, hoping to meet a vagrant air current that would lift him up. Finally, after trying several different stretches of the lake, he gave up and anchored the plane to the wharf.

# Ford Unable to Take Stand Yet, Though Gaining

DETROIT, April 3. (AP)—Henry Ford continued tonight to progress normally toward complete recovery from the chest and back injuries received a week ago when his light coupe was knocked from the highway by a heavier and more powerful closed car. There still was no indication as to when he would be able to appear as a witness in Axel Rappaport's \$1,000,000 libel suit. Likewise, there was doubt as to the trend the suit would take should cross-examination of Rappaport be completed without the automobile manufacturer being available as the next witness.

Representatives of more than 2000 members of the Michigan Retail Merchants' Association have been called to meet tomorrow night to discuss methods and effects of the retail commodities stores of the Ford Motor Company. The meeting was called by E. J. Larose, secretary of the association.

Reports were current last week that some of the concerns, feeling the economic pressure of public snubs by the Ford stores, had initiated a boycott against users of Ford products.

# FAMED BRITISH DISH RAPIDLY LOSING OUT

LONDON, April 3. (AP)—Britain's traditional boiled potato is threatened. The cooking college of the Empire Marketing Board is demonstrating 150 ways to cook potatoes, and women are showing much interest in the recipes. London cafes which cater to foreigners are now serving baked potatoes with paprika and butter, and German-fried potatoes are again on the bills of fare of high-priced restaurants. A request for creamed potatoes will uproot the kitchen in nearly any British restaurant. They have been boiled ever since the British discovered potatoes are not poisonous, and old-time cooks are slow to try any other way.

### TIN EARS ARE TOO EXPENSIVE

Mural Decorations on Near Athletics Cause Woe in Treasury

BERKELEY, April 3.—Reconstruction of bridges and welding tin ears cost the Associated Students of the University of California \$173 last semester. The rehabilitation details are:

Repairs to Roy Niswander's cauliflower ear, which acquired the vegetable aspect in football, \$20; bridges and culverts on Dick Niswander's molar, \$75; reconstruction work on Lane Fletcher's grinder, \$50; restoration of tooth given to the cause of basketball by James Douglas, \$7, and resurfacing of James E. Johnson's ear, scraped down in wrestling, \$20.

### PIERCY LOSES DUEL TO EDWARDS IN FIRST GAME

Angel Hurler Holds Suds to Four Hits but is Beaten Anyway; Callaghan Batting Star

BY BOB RAY

With Marty Callaghan, an Irish Indian, wielding a piece of hickory that had the combined effect of a shillalah and a tomahawk, Chief Red Killefer's Seattle tribe of Siwashes massacred Marty Krug's Angels twice in the same place yesterday afternoon at Wrigley Field. The Indians won by score of 3 to 1 and 6 to 5 and Callaghan's war club figured highly in both Seattle victories.

### LOU MOORE ASCOT WINNER

Wheels Come Off and Cars Skid in Race Which Sees Moore Victor Over 100-Mile Route

The mechanics must have been "down" on their drivers yesterday at Ascot Speedway. Ascot staged its bi-monthly 100-mile auto race and Lou Moore, driving a McDowell Special, won it. However, that was one of the least important events of the day, when with four or five and skids and the rain of wheels that the boys showed into the stands. There were so many accidents and untoward happenings during the long 100-mile drive that only

**Cherry Tree Wins Finale at Tia Juana**

TIA JUANA RACE TRACK, April 3.—Waiting down the hill, the last quarter, Cherry Tree, Baron Long's powerful stable star, came on to win the \$1500 Au Revoir handicap which featured the choice of the racing season here today at the end of the 10th day. Light Caroline finished two lengths back for the place and Shasta Gold was a neck further back for the show.

Cherry Tree was well rated by Jockey Hyria and raced in fourth place for three-quarters. He responded readily when called upon in the last quarter, and was down Light Caroline without difficulty. The latter drew into a long lead after going the half, but was unable to save of the winner.

Shasta Gold, second gamely, but was not good enough to overhaul the first two. Glenister II tried. The rest were never dangerous.

Dudley, owned by the Winnipig stable, won the Brookdale handicap, secondary feature at five and a

**CHARLEY PADDOCK TO TRY FOR RECORD AT SANTA BARBARA**

SANTA BARBARA, April 3.—Charles W. Paddock, world's fastest human and holder of the 100-yard dash record, is due here this week to make a motion picture. Charley has announced that in a meet carded for the Santa Barbara High School field next Saturday he will try to break the world's record for 140 yards. The mark is now held by Hutchins, the old English sprinter, at 14.1-58.

There is much interest in Paddock's appearance here. On July 4, 1922, he ran in several races here and set four or five world's records. Due to a mix-up in their transportation to eastern officials but two of the marks were accepted, those for 60 and 80 yards being put down on the books. Paddock is to film outdoor scenes for his feature, "The All-American" here.

LINCOLN, Glendale

"Top, what is a philosopher?"  
A chap who is too hard up to worry about it, son.  
Mina Zaket, 8916 1/2 Santa Monica Blvd., Sherman, Cal.

Teacher: How is sister Rebecca?  
She: Doctor don't let tell yet if she ain't stronger or was last week— but she was not yet no better than she is.  
Bert Hova, 744 Paseo del Mar, San Pedro, Cal.

Scoutman rushed into telegraph office: Say, do you charge for the address on a telegram?  
Agent: No.  
"Do you charge for the signature?"  
"No."  
"Well, then, take this address and signature. All I want is for my folks to know where I am."  
Lucille Hart, 305 West Broadway, Glendale, Cal.

Teacher: Do you know what rhabdophobia is?  
"Yes ma'am, a kind of crazy gone bloodshot."  
Gordon Everett, R. 1, Puenic, Cal.

Bridge: Weren't you excited the first time you excited the first time you excited?  
Reminded married woman: No—I was calm—and collected.  
Mrs. R. W. Langley, 300 South Palm Drive Beverly Hills.

Man to boy: Young man did you see a wagon of monkeys go by?  
Boy: No, did you fall out?  
Fred Nash, 3225 Ingraham street.

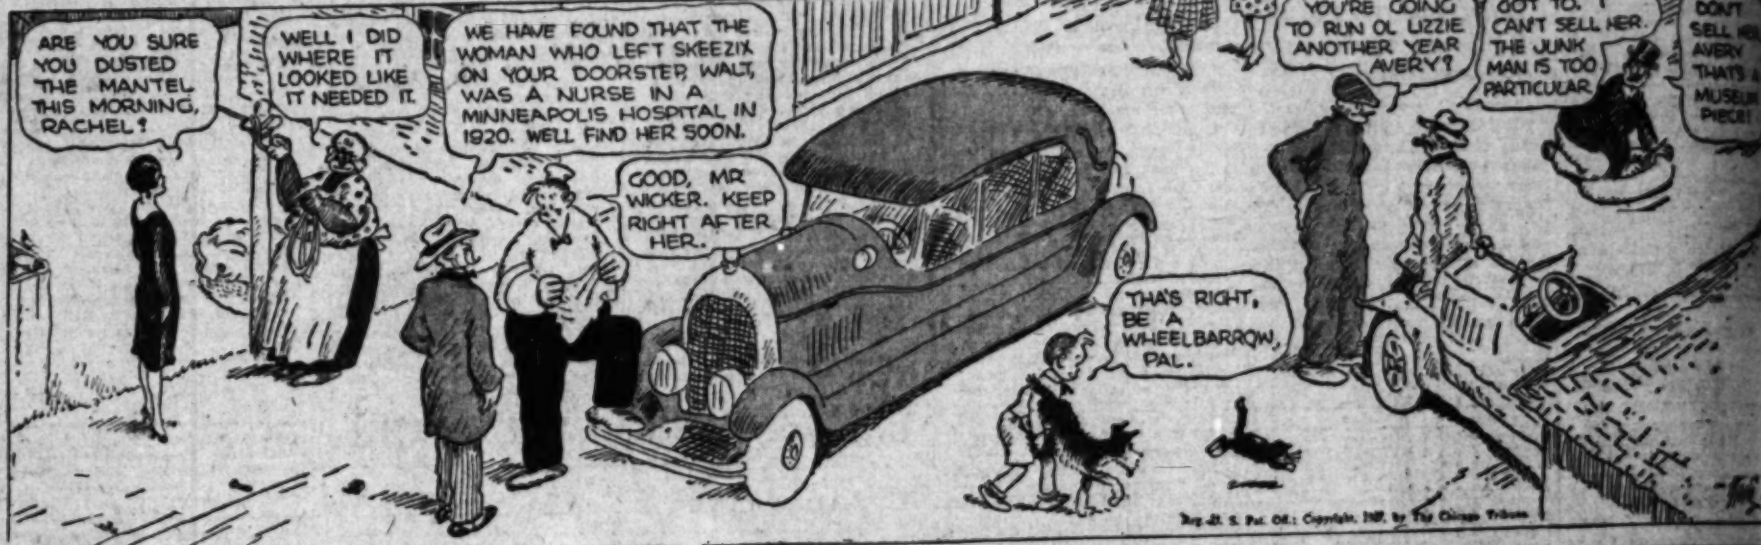

## IM THE GINK

I'm the bored gink. I call on a girl with a nonchalant air that I think makes me appear as one of those suave men of the world. No matter what she may say, I greet it with a politely bored air or a wan smile of agreement as though I were talking with a child. Of course, I am interested in what she says, but I must make an impression as a man of the world. This is why you'll find me with that bored look on my face. Occasionally I look at myself in the mirror. I think it shows a tragic spirit or something similar. Apghow, I like it, even if I exasperate others.

## COOLIDGE HOLDS RELIGION VITAL

declares Faith in Bible to Be State's Foundation  
outline in Familiarity With Scriptures Noted  
President Expresses View in Letter to Pastor

WASHINGTON, April 3. (P)—Declaring that at times it appears as though a "popular familiarity with the Bible is not as great as it once was," President Coolidge today issued a letter to the Rev. Dr. J. H. Thompson, pastor of the Church of the Holy Trinity, New York City, in which he expressed his belief in the importance of the Bible as the foundation of our government and country.

The letter was addressed to Mr. Thompson, organizer of the "Bible Week" campaign, and invited him to attend the annual convention of the National Bible Society, which will be held in New York City, May 1 to 5.

President Coolidge's letter declared that the Bible is the foundation of our government and country, and that it is the duty of every citizen to be familiar with its teachings.

"The Bible is the foundation of our government and country," the President said. "It is the duty of every citizen to be familiar with its teachings. It is the duty of every citizen to be familiar with its teachings. It is the duty of every citizen to be familiar with its teachings."

Ten Billion Gallons Used  
in Entire Nation

Average Levy Imposed on  
Autolists 2.38 Cents

WASHINGTON, April 3. (Reuter)—Gasoline taxes yielded a net revenue of \$167,608,381 in 1926, according to data collected by the Bureau of Public Roads of the United States Department of Agriculture during the various States. A tax was imposed in all but four States at rates ranging from 1 to 8 cents per gallon, the average rate being 2.38 cents. The tax collections indicate that nearly 8,000,000,000 gallons were consumed in the States imposing the tax, and it is estimated that nearly 8,000,000,000 gallons were used in the four States in which no tax was imposed.

The revenue from the tax was allocated as follows: \$139,441,820 for State highways; \$48,800,479 for county and local roads; \$4,285,999 for payments on road bonds and \$6,111,293 for miscellaneous purposes.

Fewer changes were made in the rate of tax than in other recent years. In Kentucky the rate was increased from 3 to 5 cents, in Mississippi from 3 to 4 cents, in North Dakota from 1 to 3 cents and in Virginia from 3 to 4 cents. Other increases which became effective after the close of the year were an increase in Alabama from 3 to 4 cents and in Montana from 3 to 5 cents.

## Divorcees of Reno's Latest Law Worried

RENO (Rev.) April 3. (Reuter)—Assertions by veteran Reno attorneys that an examination of the new three-month divorce law has convinced them it is unconstitutional has caused consternation among numerous parties obtaining decrees under its provisions. A. Grans Miller, James T. Boyd and other leaders of the Nevada bar contend the old law was not an initiative measure as originally believed, but a referendum which cannot be changed without being submitted to the people at a general election.

## United Parcels Enters North With Service

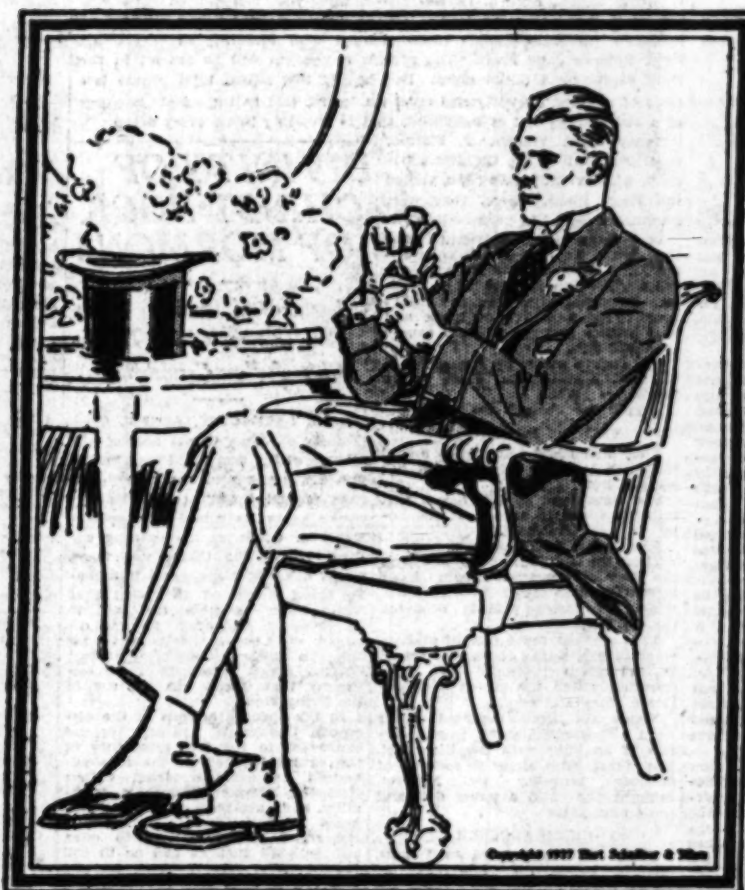

SAN FRANCISCO, April 3. (Reuter)—Over the protest of four other companies, the Railroad Commission has granted permission to the United Parcel Service of Los Angeles, Inc., to conduct a pick up service for packages and parcels not exceeding 100 pounds in weight with the cities of Long Beach and Pasadena and all points on its route between the two.

## NEW COURSE PLANNED

BERKELEY, April 3. (Reuter)—A plan is being formulated by Prof. Samuel C. May, head of the bureau of public administration at the University of California, to develop at the university an organization to train experts in municipal and Federal administration.

Governmental problems have undergone a great change during the past 100 years, according to Prof. May, and new methods are necessary to prepare men for positions of civic and national leadership in the future.

The State has developed into a complex organization performing innumerable services which touch almost every human interest and spending in this country more than one-sixth of our total income, he declared. "Adequate public administration today demands the efficient handling of a tremendous number of questions," he said.

ARIZONA PARTY  
BREAK WIDENS

Recall of Legislators and Governor Suggested  
Another Special Session of Lawmakers Possible  
Talk of Jury Inquiry and Impeachment Heard

PHOENIX, April 3. (Exclusive)—Keen apprehension is being voiced concerning what may happen, at any moment, in Arizona official circles. The war between the old line and radical factions of the Democratic party just now is at a more intense stage than even during the last primary period. Though Gov. Hunt has just had the legislative door slammed in his face, no one would be surprised were he to call still another special session immediately, despite his weakness on the legislative floor. It is appreciated that considerations of mere cost to the taxpayers would have slight influence upon him and that he usually persists in any course he may take, whatever the consequences.

Something is in the wind on both sides. From Gila county has come report of the preparation of petitions for recall of all the anti-Hunt legislators, leaving only one undisturbed. This is Hunt's own home county. The same action is promised elsewhere. It will take longer, till July 1, next, before a similar attack may be made on Hunt, but this seems to be assured.

There also is talk of a demand for a grand jury to investigate the Highway Department and other branches of the Hunt administration. All these may develop on the 18th inst. There also has been some talk of impeachment of the Governor, but this has been blunted by the fact that success would mean the elevation of Secretary of State James H. Kerby, who is not popular with a number of majority members. During the single day of the special session an unofficial and unrecorded filing of the report of a legislative audit of the books of the Secretary of State was made. Nothing crooked was found. On the contrary, praise is given of the businesslike manner in which the office has been conducted. There was finding, however, that the secretary had collected, mainly from automobile fees, the sum of \$124,207, of which the State received only \$8000. The balance had been consumed in expenses appurtenant to the administration of the new automobile laws. There was a suggestion of an item that concerned repayment of drivers' license fees that appear to have been improperly charged. The amount thus returned was \$9443. The cost of return was \$11,985.

Kerby, who is not popular with a number of majority members. During the single day of the special session an unofficial and unrecorded filing of the report of a legislative audit of the books of the Secretary of State was made. Nothing crooked was found. On the contrary, praise is given of the businesslike manner in which the office has been conducted. There was finding, however, that the secretary had collected, mainly from automobile fees, the sum of \$124,207, of which the State received only \$8000. The balance had been consumed in expenses appurtenant to the administration of the new automobile laws. There was a suggestion of an item that concerned repayment of drivers' license fees that appear to have been improperly charged. The amount thus returned was \$9443. The cost of return was \$11,985.

Modern

—these fascinating women

They know their guests must be amused, intrigued, entranced

THROUGH the doorway come couple after couple, smartly gowned and carefully groomed—breathing, walking, living in an air of bland sophistication—then the modern hostess wonders if her dinner will be successful. Scores of little ice cubes, delicately tinted, tinkle against the sides of crystal glasses. The guests are seated. Ah! That smart young lady half way down the table has discovered the tiny flower frozen in the center of each little cube of ice. The guests are captivated; their hostess has produced a novelty not seen before. The hostess breathes, "Perhaps my dinner will succeed. Perhaps—" On moves the dinner, through course after course. That distinguished gentleman whose swarthy complexion speaks of years under a tropic sun is occupying the center of attention. Servants place before each guest a small mountain of fluffy, creamy mousse, covered with glistening peaches, topped by a crest of mammoth cherries, glowing with light reflected from tall silver candelabra along the table. Clinking of silver spoons—a murmur of surprise—confused exclamations of delight. "Ah," sighs the hostess, "My dinner is truly a success!"

The nation's most distinguished homes were first—now millions can have the Copeland. This new method of electric refrigeration places frozen desserts and salads and bouillon within the reach of every housewife. Tinkling ice cubes, too—daintily tinted if you prefer. But the great purpose of Copeland Electric Refrigeration is not to provide special delicacies for one's family and friends. Through REAL refrigeration—keeping foods in a constant, dry temperature under fifty degrees—one of the principal causes of disease is eliminated. The absolute protection of the Copeland means longer life and less danger of sickness in families where it is used. The Copeland has brought electric refrigeration within the reach of millions, where only a few thousands could enjoy its advantages before. Fill out the coupon and let us send you the free book which tells more about this most modern household necessity.

PLAYS HE IS CRIMINAL  
AND GETS SCRATCHED

OAKLAND, April 3. (Exclusive)—Leo Stittini learned at the age of 8 years that even in fun, crime does not pay. Leo was playing with other children when an unleashed bloodhound appeared. "Ooo," said Leo. "Let's play I'm a criminal and you sit the dog on to me. Let him smell my handkerchief." It was all right until the dog caught up with the boy and then Leo was severely scratched in the face and neck.

CHURCH PROBLEM  
ROUSES CHURCH

Recall of Legislators and Governor Suggested  
Another Special Session of Lawmakers Possible  
Talk of Jury Inquiry and Impeachment Heard

PHOENIX, April 3. (Exclusive)—Keen apprehension is being voiced concerning what may happen, at any moment, in Arizona official circles. The war between the old line and radical factions of the Democratic party just now is at a more intense stage than even during the last primary period. Though Gov. Hunt has just had the legislative door slammed in his face, no one would be surprised were he to call still another special session immediately, despite his weakness on the legislative floor. It is appreciated that considerations of mere cost to the taxpayers would have slight influence upon him and that he usually persists in any course he may take, whatever the consequences.

Something is in the wind on both sides. From Gila county has come report of the preparation of petitions for recall of all the anti-Hunt legislators, leaving only one undisturbed. This is Hunt's own home county. The same action is promised elsewhere. It will take longer, till July 1, next, before a similar attack may be made on Hunt, but this seems to be assured.

This is Hunt's own home county. The same action is promised elsewhere. It will take longer, till July 1, next, before a similar attack may be made on Hunt, but this seems to be assured.

There also is talk of a demand for a grand jury to investigate the Highway Department and other branches of the Hunt administration. All these may develop on the 18th inst. There also has been some talk of impeachment of the Governor, but this has been blunted by the fact that success would mean the elevation of Secretary of State James H. Kerby, who is not popular with a number of majority members. During the single day of the special session an unofficial and unrecorded filing of the report of a legislative audit of the books of the Secretary of State was made. Nothing crooked was found. ## PAN-AM MOTOR CLEANING MACHINE

Osborne Process, Patent Applied For and Pending

*For the first time — an absolutely clean transmission and differential are possible for every car — in just a few minutes*

**READY TODAY** — at independent service stations — the PAN-AM MOTOR CLEANING MACHINE! This Machine is placed at your service through its independent dealers at great expense by the PAN AMERICAN PETROLEUM COMPANY to assure an absolutely clean crank case for every car using PAN-AM MOTOR OIL!

Heretofore a clean crank case has not been possible. Draining leaves the crank case covered with muck as the oil drains out. "Flushing" removes only an average of 32% of this dirty residue, and usually leaves, in addition, enough of contaminated flushing medium to "pollute" the new oil and reduce its efficiency even before it is used.

With the PAN-AM MOTOR CLEANING MACHINE every particle of residue is completely washed, not only from the crank case, but from the whole oiling system. Two gallons of PAN-AM Cleaning Lubricant are pumped through the running motor from the oil intake — out into a pan underneath the engine — filtered and pumped back into the running motor — over and over again until it comes out clean. These two gallons give a washing service equal to many more gallons — leaving your motor absolutely clean and free from every particle of dirt, grit, or other foreign substance!

Drive in today at your nearest independent dealer displaying the PAN-AM Motor CLEANING MACHINE signs — have him use this wonderful PAN-AM CLEANING MACHINE on your car — then let him show you the residue in the filter! You will be astounded at the variety and amount of grit, filings, carbon and assorted "dirt" which has been collected in your car — and which, until now, could only be removed by taking down the motor!

### PAN-AM MOTOR OIL deserves a clean crank case

PAN-AM MOTOR OIL — "clean, bright, flowing gold" — is the finest motor oil that modern methods can produce. It retains 100% lubricating efficiency under extremes of heat and cold. PAN-AM purity protects your motor! PAN-AM Cleaning Machine Service protects your oil!

#### For Transmission and Differential

These vital but neglected spots perfectly and completely washed by the PAN-AM Cleaning Machine. Here, too, an unbelievable amount of abrasive substances, grit, dirt and filings collect — causing undue wear and often serious trouble. The PAN-AM Cleaning Machine removes every particle of this muck — making the new filling of PAN-AM Transmission Lubricant 100% efficient!

#### Even Cars Equipped with Oil Filters need this Service

Oil filters get only a portion of the dirt, dust and grit that enters the crank case. We have used the PAN-AM MOTOR CLEANING MACHINE on cars having oil filters and removed a surprising amount of foreign matter from the crank case which the oil filter did not get. The only way to be SURE that your crank case is clean and the lubricant uncontaminated is to USE THE PAN-AM MOTOR CLEANING MACHINE SERVICE!

Plenty of "Chow" for the Hungry Contingent of Marines recently shipped across the continent to the West Coast to take ship for Shanghai was furnished from the temporary kitchens established in the baggage cars by "devil dog" cooks. Photo shows one of these kitchens on a transcontinental train. (P. & A. photo.)

## HIGH LIGHTS OF HISTORY—681 The Campaign for Chattanooga. by J. CARROLL MANSFIELD

**AFTER THE BATTLE OF GETTYSBURG THE SCENE OF ACTION SHIFTS BACK TO THE WESTERN THEATRE OF WAR.**

**LEUT-GEN. BRAXTON BRAGG, C.S.A.**

IN THE EARLY SUMMER OF 1863, WHILE GRANT WAS BESIEGING VICKSBURG, MAJOR-GEN. W. S. ROSECRANS WITH THE FEDERAL ARMY OF THE CUMBERLAND WAS POSTED AT NASHVILLE, TENN., WATCHING THE CONFEDERATE GEN. BRAGG, WHO HELD CHATTANOOGA. WHILE THE SIEGE OF VICKSBURG DRAGGED ON, ROSECRANS REMAINED INACTIVE, AND BRAGG MARCHED FORWARD TO SHELBYVILLE.

**ROOSELTS OF BRAGG'S ARMY**

LATE IN JUNE, WHEN THE FALL OF VICKSBURG SEEMED CERTAIN, ROSECRANS ADVANCED TO MEET BRAGG, AND BY THREATENING TO OUT-FLANK HIM, FORCED HIS OPPONENT TO RETIRE TO CHATTANOOGA WITHOUT FIGHTING A BATTLE.

**A TENNESSEE MOUNTAIN PASS NEAR CHATTANOOGA IN 1863**

CHATTANOOGA WAS A MOST IMPORTANT STRATEGIC POSITION AND ALSO A VERY STRONG ONE. TO THE EAST AND WEST THE CITY IS GUARDED BY HIGH RIDGES. BEHIND IT, TO THE SOUTH, IS A BROKEN, MOUNTAINOUS REGION, AND BEFORE IT IS THE TENNESSEE RIVER. JUST BELOW THE CITY THE CURRENT IS VERY SWIFT, MAKING IT DIFFICULT FOR STEAMERS TO ASCEND THE RIVER.

**TENNESSEE**

TO SUPPORT ROSECRANS IN HIS CAMPAIGN AGAINST CHATTANOOGA, GEN. BURNSIDE WAS ORDERED FROM KENTUCKY TO KNOXVILLE, TENN. TO BRAGG. THIS MOVEMENT SEEMED AN INDICATION THAT ROSECRANS MEANT TO APPROACH CHATTANOOGA FROM THE NORTH, AND HE PREPARED TO MEET AN ATTACK FROM THAT DIRECTION. TOMORROW—ROSECRANS ADVANCES.

# GENEVA KEY IN HAND OF SPAIN

Declared in Command of Naval Conference  
France Fears Rome-Madrid Mediterranean Pact

## Prospect of Anglo-American Called Remote

(Special, 1927, by New York Tribune.)  
GENEVA, April 3.—(Exclusive)—Spain, although dissociated from the League of Nations and not participating in the work of the preparatory commission for a disarmament conference, holds the key to success of the tripartite naval limitation conference to be held at Geneva in June by invitation of President Coolidge.

From sources of unquestioned authority it has been learned that France's participation, undecided last week after another meeting of the cabinet, is contingent upon disposition of Mediterranean waters, largely bound up in the political situation of the Mediterranean.

Where the menace of France's military ease on land lies in Germany, the naval force is wrapped up in the changes in British policy in Africa may be threatened by Spain and Italy combining on the water.

France-Spanish relations are far from cordial despite their rapprochement on Morocco. One of the principal reasons for this is that France's lead in preventing Spain's gaining full control in Tangier, which lies opposite the Rock of Gibraltar at the entrance to the Mediterranean. It is feared in France that Italy and Spain may already have come to an understanding.

ENTANGLEMENT FEARED  
With France fearful of entangling herself in agreements of naval limitation while Italy and Spain may be agreeing on the other side, the British delegates have assured the British that Rome will enter the Coolidge conference if France will do so.

It is understood some of the French advocates of a strong navy are urging France's participation in the conference as a means of securing a virtually nullify the Washington ratio by raising France's tonnage on other than capital ships.

As far as Great Britain is concerned, her naval strength does not affect French calculations. Her overwhelming power would make naval warfare outside France.

It is stated the United States is willing to grant Great Britain two and a half times as many light cruisers as required by America. This concession would be on a purely technical basis of comparative cost lines and existing possessions in the Mediterranean, with which must be protected by Britain.

BRITAIN'S FEAR  
It is Great Britain's fear of the Japanese which seems most likely to cause the British to wait even more than a 5-3 ratio over Japan in light cruisers. The British consideration of sea disarmament completely ignores the possibility of war with the United States. American naval strength is taken only as a criterion for determining.

The Admiralty is convinced that regardless of what ratio is agreed upon the United States will never build up to that figure.

Secondly, it regards war with the United States as the most likely possibility. Thirdly, it cannot foresee the United States being allied with a third power against Great Britain.

Fourthly, it is probably that a war between Great Britain and the United States would mean the break-up of the British empire.

The United States, on the other hand, while regarding a clash with Great Britain as a possibility, believes a slight chance of the British being allied with a third power against the United States.

WASHINGTON, April 3. (P.M.)—An ingenious combination of the radio, a dial similar to that on an automatic telephone, and a small control board has been hit upon by an Army Signal Corps officer to facilitate transmission of messages to ground-to-airplanes by supplementing telegraph with a visual signal system.

The officer is Capt. Paul S. Edwards, commanding the Signal Corps aircraft field laboratory at McCook Field, Dayton, O., a report on whose experiments was made public today by the War Department.

Capt. Edwards has produced the apparatus by modifying the radio beam signal which, by means of Morse telegraph code, keeps aviators constantly aware of their course. It makes possible the mechanical sending and receiving of prearranged visual radio signals consisting of numbers.

The ground station sending equipment consists of a dial with number combinations ranging from 0 to 9, which operates a radio transmitter. When a code number is dialed the transmitter broadcasts corresponding signals which are picked up by the airplane receiving set. The signals indicate a number of miles to the set which flash a small light behind the same number on the call board.

Use of the numbers would enable a code of 100 different words or messages to be transmitted automatically from ground to plane.

# WEST COAST FLEET WINS MIMIC WAR

Dreadnaughts Successful in Locating and Opposing Caribbean Sea "Enemy"

## QUANTANAMO (Cuba) April 3. (P.M.)

Combining an area of about 1000 miles over the Caribbean Sea, the United States dreadnaught fleet from the west coast successfully located and opposed the concentration of a tactical scouting naval vessels during the last week.

The fleet, which anchored safely in Guantanamo Bay yesterday, had spent a week of intensive mimic warfare and training exercises in working out the tactical problem.

The combined naval force, which have been undergoing intensive training exercises and working out problems in southern waters, will stay at anchor in Guantanamo Bay until the 17th inst. for the annual fleet athletic events and regatta.

During the stay at Guantanamo the final maneuvers on the program will be completed and details will be gone over preparatory to a visit to New York and an additional review and maneuvers in Narragansett Bay.

Where the menace of France's military ease on land lies in Germany, the naval force is wrapped up in the changes in British policy in Africa may be threatened by Spain and Italy combining on the water.

France-Spanish relations are far from cordial despite their rapprochement on Morocco. One of the principal reasons for this is that France's lead in preventing Spain's gaining full control in Tangier, which lies opposite the Rock of Gibraltar at the entrance to the Mediterranean. It is feared in France that Italy and Spain may already have come to an understanding.

ENTANGLEMENT FEARED  
With France fearful of entangling herself in agreements of naval limitation while Italy and Spain may be agreeing on the other side, the British delegates have assured the British that Rome will enter the Coolidge conference if France will do so.

It is understood some of the French advocates of a strong navy are urging France's participation in the conference as a means of securing a virtually nullify the Washington ratio by raising France's tonnage on other than capital ships.

As far as Great Britain is concerned, her naval strength does not affect French calculations. Her overwhelming power would make naval warfare outside France.

It is stated the United States is willing to grant Great Britain two and a half times as many light cruisers as required by America. This concession would be on a purely technical basis of comparative cost lines and existing possessions in the Mediterranean, with which must be protected by Britain.

BRITAIN'S FEAR  
It is Great Britain's fear of the Japanese which seems most likely to cause the British to wait even more than a 5-3 ratio over Japan in light cruisers. The British consideration of sea disarmament completely ignores the possibility of war with the United States. American naval strength is taken only as a criterion for determining.

The Admiralty is convinced that regardless of what ratio is agreed upon the United States will never build up to that figure.

Secondly, it regards war with the United States as the most likely possibility. Thirdly, it cannot foresee the United States being allied with a third power against Great Britain.

Fourthly, it is probably that a war between Great Britain and the United States would mean the break-up of the British empire.

The United States, on the other hand, while regarding a clash with Great Britain as a possibility, believes a slight chance of the British being allied with a third power against the United States.

WASHINGTON, April 3. (P.M.)—An ingenious combination of the radio, a dial similar to that on an automatic telephone, and a small control board has been hit upon by an Army Signal Corps officer to facilitate transmission of messages to ground-to-airplanes by supplementing telegraph with a visual signal system.

The officer is Capt. Paul S. Edwards, commanding the Signal Corps aircraft field laboratory at McCook Field, Dayton, O., a report on whose experiments was made public today by the War Department.

Capt. Edwards has produced the apparatus by modifying the radio beam signal which, by means of Morse telegraph code, keeps aviators constantly aware of their course. It makes possible the mechanical sending and receiving of prearranged visual radio signals consisting of numbers.

The ground station sending equipment consists of a dial with number combinations ranging from 0 to 9, which operates a radio transmitter. When a code number is dialed the transmitter broadcasts corresponding signals which are picked up by the airplane receiving set. The signals indicate a number of miles to the set which flash a small light behind the same number on the call board.

Use of the numbers would enable a code of 100 different words or messages to be transmitted automatically from ground to plane.

# EXPANSION FOR SHIPPING LINE

California and Eastern Will Operate Six Steamers

## Arrival Today First Under Enlarged Service

### Thirty-three Vessels Due to Reach Port Today

Expansion of the International service of the California and Eastern Steamship Company to the operation of six steamers will be established this morning, when the New Britain, first of two chartered steamers, arrives from Atlantic ports with 3000 tons of freight for local consignees.

The New Britain and J. R. Gordon, the latter well known here as the unit of the Union Sulphur fleet, have been chartered by the Los Angeles International line to fill the tonnage gap created when the steamers West Kats, West Katan and West Kato were sent to the United Kingdom with special cargoes.

The New Britain has for several years operated out of this port to the Atlantic Coast in the service of the Williams line.

The J. R. Gordon is due here with her first general cargo on the 20th inst. The West Kato being the only California and Eastern-owned steamer remaining in the international service.

It is expected, however, that the West Kats, West Kato and West Katan will return to the coast-to-coast trade upon completion of their present voyage and the J. R. Gordon and New Britain will remain under California and Eastern operation, due to the constantly increasing intercoastal traffic.

HARBOR TO HAVE  
HURRIEST DAY IN YEARS  
The port's busiest day in several years is today, when six special cargo steamers, including the New Britain, will arrive. Included in this list are six special cargo steamers, including the New Britain, will arrive. Included in this list are six special cargo steamers, including the New Britain, will arrive.

## BUY AT THE BOTTOM

Several of the best of the mining stocks are selling at the lowest prices registered in months, despite the fact that the properties back of the stocks are producing more profitably than ever before. We look for a decidedly active market in the near future and believe that listed mining shares can be bought now with confidence that they will yield early and satisfactory profits.

### New York Carb Stocks

We receive and post almost continuous quotations on the active carb stock market, which have local associations.

### JULIAN PETROLEUM

We solicit your orders in this active issue and frequently have information of decided value to stockholders.

### FOR SALE

1000 Shares of Julian Petroleum Co. Inc. at \$10.00 per share. Total \$10,000.00. Cash paid \$5,000.00. Balance \$5,000.00. Terms: Cash on delivery.

### WE WILL BUY

1000 Shares of Julian Petroleum Co. Inc. at \$10.00 per share. Total \$10,000.00. Cash paid \$5,000.00. Balance \$5,000.00. Terms: Cash on delivery.

Above offerings subject to prior sale or withdrawal, errors excepted. Get our market advice, which are free of any obligation. Use the coupon.

# Oil Wells and Their Products; What Basin Fields Are Doing

## NEW PRODUCER IN SPOTLIGHT

Completion in New Mexico

Attracts Attention

Interest Turns to Southeast

Corner of State

Geological Theory Regarded

as Being Confirmed

ARTESIA (N. M.) April 3. (Exclusive)—Completion of a well, estimated at 2000 barrels a day, is causing considerable interest in the southeastern part of New Mexico, a being just twelve miles south of the State line. The well is located on Sec. 4, Block B-5, and is 800 feet east of the Westbrook discovery well.

The Gulf Oil Corp. is operating the well at the rate of 185 barrels an hour. The formations are running approximately 100 feet higher than in the Southern Cross Oil Company No. 1 discovery hole, known as the Westbrook well. The well was drilled at 2000 feet, the bit penetrating a distance of 200 feet.

Considerable wildcatting is expected to be done by the major companies, who now control practically all the acreage in the southeastern part of this State, the Midwest being the largest holder. Several geologists, who have done a large amount of work here are of the opinion that a fault extends from Pease County south and across the center of Ward, Western Winkler and the Westbrook county, New Mexico. This fault line has been drawn, after a careful study of well logs, covering the area in question.

The Texas Company is spending in the Robinson No. 1 on Sec. 23, 16-31, and the Rhodes No. 1 on Sec. 22, 24-37, the latter being fourteen miles north of the Winkler county producer.

The Prairie Oil and Gas Company's No. 1 on Sec. 10, 17-31, will make only a small producer when put on production, it is asserted.

The Ohio Oil Company has a bad fishing log in Mitchell No. 1 on Sec. 10, 17-31, having drilled a string of four and one-quarter inch casing. The Midwest Oil Company has a fishing job, having drilled the ten-inch casing in the No. 1 on Sec. 21, 17-30.

The Superior Oil Company of Los Angeles made its first location on Sec. 23, 24-37, two miles south of the town of Loving. The well will be drilled on a block of 800 acres.

The Danciger Oil and Refining Company is moving to a location at the southwest corner of Sec. 21, 17-37, on the McClay permit. This is on the west side of the Artesia field, near the Rio Grande.

The Midwest Refining Company picked up another oil sand in the No. 1 test on Sec. 1, 17-30 in McKinley county, at a depth of 1025 feet. The well is estimated at 500 barrels.

Notice of seizure of the strings of tools lost in the hole. This company has moved in a rig for a second test to offset the No. 1. The discovery well is being drilled in a test and, regardless of the production found, will be carried to the Dakota east.

## SHELL GETS LEASE

IN KERN DISTRICT

BAKERSFIELD, April 3. (Exclusive)—The Shell Company has leased the north half of the northwest quarter and the southeast quarter of the northwest quarter of Section 21, 26-38, from Pauline Balle, guardian for John W. Balle. The lease covers 120 acres, and was filed for record here a few days ago. Drilling may be deferred for three years. Royalty is set at one-eighth. The property lies north of the Peco Creek field.

## MEXICAN MINERALS

PLANNING SMELTER

MAZATLAN (Sinaloa) April 3. (Exclusive)—Mexican Minerals, an American corporation, is reported to be preparing for the erection here this city of a smelting plant that will cost about \$250,000. Contracts for ore are said to have been made with a number of west-coast mines.

NOTICE OF SPECIAL MEETING OF THE STOCKHOLDERS OF THE FARMERS AND MERCHANTS NATIONAL BANK OF LOS

Angels, California, to be held at the Special Meeting of the Stockholders of the Farmers and Merchants National Bank of Los Angeles, California, on Thursday, April 13, 1927, at 2 o'clock p.m., to consider and vote upon the question of increasing the capital stock of the Bank from two million (\$2,000,000) dollars, and for the transaction of such other business as may properly come before it, including the price per share at which said Bank, this day of April, 1927.

A. E. KASSEL, Cashier.

## MINE AREA IN NEVADA REVIVING

Graniteville Reported as

More Active Than at Any

Time Since 1911

GRANITEVILLE, April 3. (Exclusive)—Graniteville is showing more activity this winter than at any time since 1911 when the Birchville mill and mine buildings burned, closing down that property just as it was getting in shape for good production.

Just recently the Republic and National mines have consolidated and are now known as the Republic and National Group of Mines, incorporated under the laws of the State of Nevada, with a capital of \$250,000.

The board of directors are Fred Epler, president and director; William McLean, vice-president and director; Carl Epler, general manager and director; James Baldwin, secretary; Merle Baldwin, assistant secretary. Detroit and Los Angeles capital is now backing this venture.

There is now on the property a ten-stamp mill with a capacity of about 100 tons a day. It has been produced over \$200,000 to a drill, machine shop and all necessary mining equipment. The Republic mine has produced approximately \$150,000, all of which came from the Republic mine.

The National has not been worked for several years. It is reported to be a depth of 160 feet. The development now under way is to continue the mill tunnel until it is under the National shaft when a raise will be put up for ventilation and as an air shaft. The mill will be 400 feet and will be 200 feet from the portal of the mill tunnel.

With the showing now in sight and with what may reasonably be expected, this should develop into one of the big producers of Nevada county.

## STANDARD PETROLEUM GETS RIGHTS

Total of 6400 Acres in

New Mexico Distributed

Over Wide Area

Eighty leases, each embracing eighty acres, and all strewn out across New Mexico, from San Juan Basin to the Artesia field, have just been acquired from the Navajo Oil Company, a Los Angeles organization, by Standard Petroleum of New Mexico, Inc., which was recently organized by Los Angeles business men.

At the same time Standard Petroleum acquired from Ralph Arnold and associates an interest in leases on from 200,000 to 300,000 acres in Montana, Wyoming, Colorado, Texas and New Mexico.

By C. V. Scott, who was selected by Mr. Arnold and his associates to be developed under the supervision of Mr. Arnold. The two districts Standard Petroleum holdings across the entire midcontinent field.

The New Mexico holdings of Standard Petroleum are on proven structures, near leases now being drilled or under contract for major companies and in the path of an active drilling campaign now on in New Mexico.

Standard Petroleum's advisory board is as follows: C. C. Magnusheimer, John Blair, C. H. Marlow, H. H. H. Head, Elliott Kelly and J. W. Brown.

## OUTPUT OF UNION OIL INCREASED

Two Completions Boost

Production in Richfield

Area 1300 Barrels

The Union Oil Company of California increased its production by over 1800 barrels a day yesterday through the completion of two wells in the Richfield district. The T. & G. No. 2 flowed 712 barrels in twenty-four hours. Bottoms of the hole is 4497 feet. The hole is clean and it tests 28.5 deg. gravity.

The second completion was the T. O. No. 12, which is producing 600 barrels daily. Bottoms of the hole is 4515 feet. The oil is clean and tests 28 deg. gravity.

The output of these wells gives the Union sixty-eight producers in the Richfield district with gross production of approximately 7800 barrels. Union is now drilling ten more wells at Richfield, some of which are nearing the oil sands and should be listed among the completions of the next few weeks.

In the Santa Fe Springs field, Union recently completed its Bell No. 27 for a daily flow of nearly 800 barrels. This well was originally drilled 2000 feet as a gas producer, but the gas production was soon exhausted, and the well was deepened for the purpose of obtaining more information on the Peco zone in that area. Depth of the hole is 5810 feet.

## JUST ABOUT WOMEN

Queen Maud of Norway enjoys the reputation of being the best dancer and the best skater of all the women of European royalty.

The measure, held aloft by two employees of a dry-goods establishment, formed a novel way for a woman to get a wedding in England the other day.

A woman recently detected in an attempt to evade duty on some valuable furs, has just celebrated her fiftieth anniversary as a member of the staff of the Boston Public Library.

Mrs. Lena D. Sulzer of St. Louis one of the four women in the United States to be at the head of a savings bank, is a great-granddaughter of Henry Duncan, the Scottish clergyman who founded the first savings bank.

Eight hundred women in England now hold positions as magistrates.

## CLAIMS GROUP UNDER OPTION

Nevada Operator Enters New

Arizona District

Thirteen Between Cowboy

and Lee Estates Taken

PHOENIX, April 3. (Exclusive)—Grover C. Thompson, a Nevada mining man, has secured an option on thirteen claims lying between the Cowboy and Lee groups of the Nevada district already have been staked at Globe, the county seat of Gila county, in which the larger part of the district lies. The Lee mine is staked on the line of Pinal county, into which much prospecting has spread.

Locations have extended down into the gulches, which for years have had desultory washing for gold, when water shafts have been started on a group has been located "Blackrock City," a sketchy camp that may vie in importance with "Paradise City," which is being laid out on much more formal lines. The latter is to be furnished with a city water supply from a tunnel which is to be reached by a new road that is being constructed up the hillside trail that has been worn deep by prospecting.

More systematic work has been started on the Cowboy, with the clearing out of old workings, including the extension of a tunnel, while a new shaft has been started on the vein. An old mill is being rehabilitated, with the expectation of building a new mill on the site.

At the same time Standard Petroleum has proceeded to a more businesslike stage. The rich ore found in a narrow streak of the vein, readily picked from the loose material, is being shipped to the coast, where it is being sold at a profit.

The Band drift, according to visiting engineers.

## VINELAND PICKED AS FIELD'S HUB

C. V. Scott Says Area

is Logical Center for

Future Operations

ARVIN, April 3. (Exclusive)—Vineland school district, in the vicinity of Sec. 19, 31-30, is believed by C. V. Scott of Bakersfield to be the logical site for future drilling by companies seeking an oil field indicated by outcroppings in the Comanche Point area.

"I have watched oil developments in Kern county since the discovery of oil in the Santa Fe Springs field arrive at but one conclusion," said he. "I find that all the structures run most due northwest from the outcroppings or surface exposures."

"The west-side field runs due northwest from Sunset and is intersected by an intervening fault, but it sticks to a northwest course."

"The Santa Fe Springs field, on the other hand, is a north-south line on the line to the northwest."

"It is also plainly noticeable that the best production is obtained close to an outcrop. My idea of a location for a well would be five miles due northwest from the Comanche Point—about the west half of Sec. 19, 31-30, or the east half of Sec. 24, 31-30."

## TEXAS UNIVERSITY

OIL FUND MOUNTING

SAN ANTONIO (Tex.) April 3. (Exclusive)—Royalty checks to the University of Texas for royalties on oil produced in Texas during the month of February bring the total received by the university to date to \$5,545,000.72.

A species of bat with a wing spread of five feet is found in the Malay Islands.

England has a clean-rivers campaign.

Japan faces a rice shortage.

## WESTERN LUBES MEET NEEDS

Government Tests Show Lubricating Oils of State on

Parity With Those of Eastern Fields

SAN FRANCISCO, April 3. (Exclusive)—Experiments conducted over a period of four years here by the United States Bureau of Mines have led government statisticians to the conclusion that California lubricating oil is on a parity with oil produced elsewhere. Engineers M. J. Gavin and C. P. Bowie, who made known the results of the long tests, declared their unqualified belief that the higher-priced paraffin-base oils from eastern fields are no better for lubricating automobile engines than the naphthene or asphalt base oils produced in California.

The tests were conducted with lubricants from crude oils that to motor similar to that used in the tests. The results indicate that for use in automotive equipment lubricating oils need not be refined to as high a degree as for use in turbine and similar machinery, and that considerable savings may be made in present refining processes. The purpose of the experiments was to conduct engine tests to determine the relative merits of western oils that do not pass the tests as set forth in the Federal specifications for Class C oil.

"Four pairs of oils, each made by a different refiner from California crude petroleum, were given a severe test. Oil was added to water, and the test period. Consequently, if differences in the oils were of importance, they should have caused variations in the operation or the mechanical condition of the engine or in the characteristics of the oils themselves after use. All of the refined oils used in the tests seem to have performed equally well."

"The possibilities of producing good lubricated oil effectively."

## NEW GOLD RUSH ON IN NEVADA

Bathing Proclivity of Two

Prospectors Leads to

Original Find

A new stampede has broken out at Beatty, Nev., following rich placer finds near Regan's Hot Springs.

The entire country five miles north of Beatty to a point a mile south of Greenwood ranch has been staked, and prospecting has been started at many points.

Pay gravel was first found in a natural tunnel by two prospectors who were taking a hot bath at the springs.

## BLACK OIL HUNT AIDED BY RULING

Northern Wyoming Area

Gets Concession From

Interior Secretary

THERMOPOLIS (Wyo.) April 3. (Exclusive)—Wildcatting on new structures in the Big Horn Basin of Northern Wyoming is expected to increase as a result of the recent ruling of Secretary of the Interior William C. Gaudin, upon the petition of the Thermopolis Chamber of Commerce requesting a straight one-eighth royalty on the black oils of the region.

His ruling was to the effect that because of the prevalent conditions of the black oil industry favorable consideration of petitions for relief in drilling new wells and pumping operations will be given.

Local oil men took upon this as meaning a more liberal attitude toward wildcat structures. One points out that all the necessary conditions to hold acreage on a black-oil structure is to drill the original well, separate the oil from the water, and the 5 per cent royalty is allowed as bonus, and drop the remaining 1920 acres. It is thought that relief can be obtained from drilling the other fifteen holes now necessary to bring the oil to the surface, meaning being that one well be drilled for every forty acres.

Already the drilling of one wildcat structure that has heretofore been disregarded has been contracted for, while another will probably be contracted for this week.

The oil companies may now explore sixteen structures for the same amount of money as was required for testing and developing one under the former department ruling.

This is a fortunate move for the Big Horn Basin, where a string of structures of varying size extends over a large area of the basin.

At a dinner in Atlanta Mr. Stanton once assailed a misogynist anti-feminist.

"This poor fellow's ideas about women," he said, "remind me of an anecdote."

"George," said a nervous young clerk to an elderly bachelor bookkeeper, "suppose a young fellow takes a girl to the theater in a taxi, treats her to supper and a dance afterward, and then takes her home in another taxi, should he, or should he not, kiss her good-night?"

"Humph," said George. "Seems to me he's done enough for her already." —(Pittsburgh Chronicle.)

## WOMAN-HATERS VIEW

The late Frank L. Stanton, the Georgia poet, was a genial soul, and he hated misogynists, he hated them.

At a dinner in Atlanta Mr. Stanton once assailed a misogynist anti-feminist.

"This poor fellow's ideas about women," he said, "remind me of an anecdote."

"George," said a nervous young clerk to an elderly bachelor bookkeeper, "suppose a young fellow takes a girl to the theater in a taxi, treats her to supper and a dance afterward, and then takes her home in another taxi, should he, or should he not, kiss her good-night?"

"Humph," said George. "Seems to me he's done enough for her already." —(Pittsburgh Chronicle.)

## FLOWERS PLentiful

Multihued Highway, between Western avenue and Hollywood way, is in excellent condition, and wild flowers will be found in abundance, according to the touring bureau of the Automobile Club of Southern California.

## HOLDING IN MINE AREA ENLARGED

Group of Five Claims in

Pioche Field Taken Over

by Virginia Louise

The Virginia Louise Mining Company of Los Angeles, formerly operated near Pioche, Nev., has reorganized its board of directors and under new management has taken over, under bond and lease, a group of five claims in the Pioche field, in the same mineralized zone and not far from the 100-foot level, and has begun to develop them.

The property acquired by the Virginia Louise Company is noted for its heavy surface mineralization, and has a record of production from shallow workings, from which shipments have been made valued at about \$40 a ton in lead, silver and gold, according to smaller returns.

The new management is now sinking the main fifty-foot working shaft, and has added level, and reports from the camp state that in the performance of sinking operations considerable ore of shipping grade is being broken and stored on the dump. In shaft-sinking, stations will be cut at each 100-foot level, and the shaft will be added level, and cross-cut, and drift run on the vein, which is a strong feature in a rhyolite andesite.

## MINE LEVEL AT DEEPEST POINT

be 3545 Feet

Depth Declared Record for

Grass Valley Area

Old Gold Estate Opening at

Cost of \$800,000

SACRAMENTO, April 3. (Exclusive)—Mining has begun on the 8000-foot level of the North Star mine at Grass Valley, after preparations extending over two years. The level is 3545 vertical feet from surface, and marks the deepest point ever reached in a district which has been prospecting since 1849, and is credited with a total gold output exceeding \$100,000,000. Deepening of the shaft and opening of new laterals represent an expenditure of over \$800,000.

The management states that profitably ore has been developed to the 7000-foot level, with good prospects for intersection of the ore bodies on the deepest workings. The mine is running steadily on good ore from the main workings, with 300 men employed.

The rich shoot opened recently at a depth of 125 feet in the Safford mine, near Sonora, has widened from five to twelve inches with considerable specimens are showing, according to the management. The ore was found after several companies had vainly sought its extension, and after the property had been reopened following many years of idleness.

Reported to represent Los Angeles capital William H. Dwyer has leased and optioned an extensive group of gravel properties in the old Cherokee district, near Sonora. The purchase price is \$45,000. Gravel carrying good gold values has been tapped by prospect holes and trenches, with indications favorable for the development of a large producer.

The shaft at the Moore mine, near Jackson, near Sonora, has been sunk to the 1800-foot level is expected to tap the extension of the Argonaut-Kennedy vein-system at an early date. Quarts seams are showing in the North Jackson area, and the management expects to be in a position to resume production in the near future. The property adjoins the Argonaut, Kennedy and other noted Mother Lode producers, and is controlled by Los Angeles and San Francisco capitalists.

## Oil Flotation Mill is Ordered by Union Mining

Following the successful development of its property in Inyo county the Union Mining Company of Los Angeles, has awarded a contract to the Southwestern Engineering Corporation for the machinery and equipment of a 100-ton daily capacity oil flotation pilot mill, now in course of construction and which should go into commission about August 15, according to E. J. Carrillo, general manager, who says this plant is one of a series of mills to be constructed until the mill capacity will be rated at 1000 tons daily. Fred W. Solomon, superintendent of the company staff, is now on the ground looking after installation work.

Frederick Kene has led a general strike of a sustained nature. The railroad has been rising since their low of 1920, but even now they are not as high as they were in 192

## ANGELENO BACK FOR WELL-EARNED REST

John D. Fredericks

## PHYSICIANS WILL HEAR NOTED MEN

Secretary Work Among Those to Address Meeting of Medical Association

Many distinguished physicians and surgeons from all sections of the United States will participate in the fifty-sixth annual meeting of the Southern California Medical Association, which is being held at the Hotel California, in Los Angeles, from April 10 to 14.

Among other speakers will be Dr. J. H. Cumming, Surgeon-General of the United States Public Health Service; Dr. W. A. Evans, health officer of the Chicago Tribune; Dr. Howard A. Knapp, professor of obstetrics and gynecology at the University of California; Dr. J. B. Herrick, professor of medicine at the University of California; Dr. Stuart McDougall, president of the University of California; and Dr. W. W. Campbell, president of the University of California.

## RECORD MADE IN AVIATION

California to Celebrate First Anniversary of Locally Owned Air Express

California has achieved international recognition as the center of aviation and is attracting universal attention to its progress in this field. The California Air Express, which was organized in 1926, has made a record in the history of aviation by carrying the first air mail from Los Angeles to San Francisco in less than 24 hours.

## VIADUCT WORK TO START SOON

Plan Complete for Spanning River as First Street

Present Worn-Out Structure in Use Since 1889

New Bridge Vital Link in Major Traffic Idea

Work is scheduled to start soon on the new \$275,000 First-street viaduct across the Los Angeles River and industrial district railroad tracks, following the completion last week of the plans of the bridge by City Engineer Butler.

## WILL BE LONGER

The new viaduct will be 3000 feet long, including approaches, as compared with the 1200-foot length of the present bridge, extending from Vignes street on the west to Mission Road on the east side of the river.

## REPORT ON INCOME OF CITY MADE

Controller Shows That \$21,428,406 Received and Spent in Eight Months

A detailed report has just been released by John S. Myers, City Controller, which shows a \$21,428,406 total revenue received by the city for the eight months ended February, 1927, and the activities of the various departments for the same period.

## PROMISED RAIN FAILS TO ARRIVE

Partly Cloudy Weather Forecast for Today and Tomorrow in Southland

Partly cloudy weather, but no great probability of rain, was the forecast for today and tomorrow, made last night by Col. E. R. Hervey, chief of the local office of the Weather Bureau.

## GETTING FIRST GLIMPSE OF AMERICA

Oriental Arrive From Sugar Fields of Hawaii

Packed tightly on the forward deck of the liner as she slowly warped her way into her Wilmington dock, the orientals gazed with undiminished interest on the shores of their promised land, which most of them were seeing for the first time.

## COURT WORK SPEEDED BY NEW PLANS

Two Sessions to be Held in Court of Appeal to Clear Calendar

Illustrating the effectiveness of the Judicial Council plan of expediting court calendars, Division One of the Second District Court of Appeal will hold two sessions this week instead of one generally conducted the first week of each month.

## AUTO ACCIDENTS KILL TRIO

Three Others Hurt in Los Angeles and Vicinity; Two Die from Previous Mishaps

Traffic accidents in Los Angeles county yesterday caused the death of one man and injuries to three persons who were the victims of hit-and-run drivers. Two other men died in the General Hospital from injuries received in previous accidents.

## The Lancer

by Harry Carr

THIS new City Hall, whose skeleton stands up against the sky. Besides being a beautiful and impressive building in the making, there is this and that about it which interests me.

## ROYAL STAIRWAYS

The old City Hall was a dumpy little one-horse building with broad regal stairways. Its architecture—especially the stairways—represented an idea; which was that a city is a principality to be governed from something as near like a palace as it could be got to look.

## HENRY FORD'S "ACCIDENT"

Henry Ford's real tragedy, I imagine, is more a sprained set of ideals than a sprained back. He has shown during his career a remarkable deal of courage. But it will need more than he has ever yet been called upon to show to keep up—from now on—his somewhat naive faith in the human race.

## HIS POPULARITY

The personal popularity of Henry Ford illustrates a curious phase of American character. If you will look back you will find that he began to be a popular hero at the time of that libel suit when the lawyers got him on the witness stand and made him admit that he thought Benedict Arnold was an English novelist.

## THE KAISER'S NICHES

The ex-Kaiser is the richer by many millions in the way of a stock of memories returned to him by the German people. But I doubt if it will make him any happier. In fact, an immense collection of castles and no glory to go with them will probably make him far less happy.

## A SAD NAPOLEON

As an exiled Napoleon, a certain melancholy and dramatic interest enfolded him. From now on, he will be a painfully futile gentleman, vastly overladen with some real estate he will not know what to do with.

## HE WILL BE "FANNED"

When he lived in Berlin as the All-Highest, it was treason and bloody murder to criticize him. If he comes back to Berlin, he will hear "some certain truth" about himself that will make the hair of his distinguished whiskers curl.

## A BOOTLEG MURDER

Another bootlegger murdered. And that's that. It has come to the point in Los Angeles where we view bloody gun fights between rum runners as complacency as a fight between tomatoes on a back fence.

## WHAT THE GIRL SAID

The courts will no doubt sift out the question correctly in (Continued on Page 2, Column 5)

## AUNT HET

BY ROBERT QUILLLEN

"I don't judge other folks. I skinned my knuckle once a-pullin' carpet tacks, an' I would have said a cuss word if I'd knowed any."

## Yesterday!—The ROMANCE of LOS ANGELES—Today!

WASHINGTON at Third Avenue in 1896 was "out in the country." A path, which bravely carried the name of "road" was the forerunner of the broad boulevard, which today is one of the main east-and-west arteries of the city, and in ten minutes carries for as much traffic as traversed the 1896 road in a day. The "cycle path," which ran parallel with the road has given way to a broad sidewalk, and the bicycles to hurrying pedestrians. (Photographs through courtesy Security Trust and Savings Bank.)

Favorite Old-Time Tunes  
appearance there as a soloist at the  
Polish Club, "La Toca," "La Toca,"  
"La Toca," "La Toca," "La Toca,"  
and other songs.  
Opera, in its finer manifestations,  
is the most complicated and difficult  
of musical forms as it involves both  
the literary and the dramatic de-  
velopments of the ordinary drama and  
requires the intense application of  
practically all of the resources of  
musical art on both the creative and  
receptive sides.  
Opera, like the spoken drama, has  
been developed on both the serious  
and the comic sides. It aims some-  
times at the tragic or sublime, some-  
times at the romantic or mythical,  
often at the satirical or humorous,  
and even homely or sordid.  
Yet with all these variations of con-  
dition and circumstance, its vitality  
has been preserved by its musical na-  
ture and possibilities.  
Probably in its entire five years of  
broadcasting, KJL has never presented a  
California opera singer with the ex-  
perience, training and general adap-  
tability of Franklin Harold Colson. He  
possesses a remarkably clear and  
penetrating voice with tremendous  
range and power. It has a peculiar  
resonance which makes it especially  
adaptable to broadcast and the singer  
has that sometimes rare ability to  
project himself into the role which  
he portrays and for the time lives  
the characters in the singing parts.  
Last night's broadcast recital of Mr.  
Colson from KJL even surpassed his  
initial appearance at the lower sta-  
tion. The well-chosen selections, per-  
fect diction, complete control of vocal  
range, and sympathetic vocal qual-  
ities mark Mr. Colson as a singer with  
the ability to present operatic roles  
via broadcast as well as on the stage.  
Radio fans and lovers of good music  
will undoubtedly have opportunities  
next season of hearing the singer in  
stage presentations through Southern  
California.  
The high spots in the broadcast of  
the week from the lower station will  
include the Tuesday night concert  
by Robert's Golden State Band and  
"An Evening in India," Wednesday  
evening arranged by Lal Chand Meh-  
ra. Mr. Mehra will talk on "Customs  
and Life in India," during the broad-  
cast and at that time he will answer  
questions regarding his native coun-  
try. Those who care to send in ques-  
tions to be answered Wednesday night  
can address the speaker care of KJL.  
While names and addresses will not  
be broadcast they should, however,  
be included in the letters.  
A company for importing and ex-  
porting motion picture films has been  
established in New York City by Miss  
Edna Williams, thereby opening up a  
new field of endeavor for women.  
Miss Edna Ferguson, head of a tour  
service in New Mexico, engages wom-  
en guides to go over the route with  
travelers, explaining the traditions of  
the country.

POLITICS TO BE TOPIC  
AT JOINT CLUB DINNER  
A campaign for members and a  
discussion of matters pertaining to  
the coming municipal election will  
feature a joint dinner of the Men's  
City Club and the Business Woman's  
Club tomorrow night. The dinner  
is being staged by the women's  
organization. Mayor Cramer and can-  
didate for election to the Board of  
Education are among the invited  
guests. A special program of enter-  
tainment will be provided, featuring  
Bessie T. Lammie, niece of Carl  
Lammie, who has appeared in re-  
cent films. Executives of other Los  
Angeles clubs are to attend the  
dinner and all business men and  
women are welcome. The affair will  
be held in the rooms of the Men's  
City Club, 323 South Spring street,  
used as a scrubbing trough.

Worker Falls  
Down Elevator  
Shaft to Death  
Losing his balance while loading a  
freight elevator with lumber, B.  
Peres, 30 years of age, of 8088 Gar-  
ret street, toppled from the platform  
and fell five stories to his death  
yesterday morning.  
The accident occurred at the new  
Bears-Bowback Building at Ninth  
street and Boyle avenue, now under  
construction. The body was taken  
to the County Morgue.  
In India the elephants are given  
their baths with the help of bricks  
City Club, 323 South Spring street,  
used as a scrubbing trough.

BANK DISTRIBUTES  
TRAFFIC PLAN MAPS  
Maps of Los Angeles, showing pro-  
gress made on the Major Traffic Street  
Plan, have been prepared by the  
Traffic Commission, and are being  
distributed through the courtesy of  
the Security Trust and Savings Bank.  
The maps are free. Through the use  
of colored inks, the status of any  
major traffic improvement may be  
determined at a glance. Due to the  
comparative ease in obtaining rights  
of way, most of the completed proj-  
ects are located in the west and south  
portions of the city.  
Mrs. Grace B. Urbana, elected  
State Treasurer in Indiana, is the  
first woman to be elected to an ad-  
ministrative office in the Hoosier  
State.

FORESTRY BANQUET  
COMMITTEE NAMED  
Arthur S. Bent, chairman of the  
banquet invitation committee for  
Forestry Week, has appointed the  
following citizens to work with him:  
Russell H. Ballard, Harry Chandler,  
Dr. Frank Barham, William Lacy and  
George O. Young. The banquet is  
to be held at the Biltmore Friday  
evening the 29th inst. In connection  
with the series of such affairs to  
be held during Forestry Week from  
April 24 to 30, Col. William B.  
Orsley, chief of the United States  
Forestry Service, is to be the prin-  
cipal speaker.  
Though she is past 80 years of age,  
Mrs. Susan Appes, of Tallahassee, Fla.,  
has just completed writing her sec-  
ond novel.

Circus Barber  
Hurt in Freak  
Train Mishap  
Milton Scott, employed as a barber  
by the Al O. Barnes Circus, received  
severe head lacerations in a freak  
railway accident yesterday morning.  
Scott, according to a police report,  
was walking from the dining car into  
the sleeping car of the circus train  
en route between Pasadena and San  
Pedro when the train separated at  
that point. Scott, instead of stepping  
onto the platform of the Pull-  
man, fell headlong to the rails. The  
section of the train to which the din-  
ing car was attached was at a stand-  
still at the time, it was said.

### THE FILE USER'S POINT OF VIEW

Why a Carpenter and His Young Son Use The NICHOLSON Slim Taper File

A good carpenter, like all successful men, is born wise and accumulates wisdom every day of his life.

This carpenter knows the wisdom of using the NICHOLSON Slim Taper File to sharpen his saw teeth—and he is making his son acquire this valuable information.

Not only carpenters but all who use saws will find the NICHOLSON Slim Taper File the best tool to give saw teeth renewed bite.

It is important but not hard to select the right file for each job. Hardware Dealers can supply you with a NICHOLSON File for every purpose.

NICHOLSON FILE CO. A File for Every Purpose  
Providence, R. I., U. S. A.

Burglars and Bandits Active at Long Beach

LONG BEACH, April 3.—Two burglars and two hold-ups took place here in the early hours today, with a total loss of a little more than \$700. O. A. Beckett and H. M. Pritchard, 1483 Gaviota avenue, were near-  
ing their home when two men leaped from a car, presented guns and de-  
manded their money. Pritchard man-  
aged to drop his wallet unobserved  
into the grass and so saved \$68, los-  
ing only some small change. Beckett  
lost \$10.  
Gail W. Wise, oil worker, was over-  
taken from the rear at Atlantic ave-  
nue and Wilcox street by a bandit  
who placed a gun at his back and  
compelled him to hand over his pocket  
book and keep on walking. He lost  
\$67 and did not even get a glimpse  
of the man who took it.  
Burglars took \$600 worth of radio  
sets and accessories from Missman  
Radio Shop at 2908 East Anaheim  
street. Two young burglars were  
opening the safe at the Silver Spray  
dance hall, Silver Spray Pier, when  
they were interrupted by the watch-  
man, Louis Forger. They told him  
they had been hired to clean up and  
he accepted the explanation, but  
they fled after he went on, leaving  
their tools behind. The safe con-  
tained more than \$1000.  
Dr. Emma Acosta is Argentina's  
woman government attorney and will  
officially as the government defender  
of minors, absent parties and defen-

*Bad laws, if they exist, should be repealed as soon as possible; still, while they continue in force, for the sake of example they should be religiously observed.*  
 —Abraham Lincoln

**TOUCH OF GENIUS**  
 A woman is a genius because she can take an old \$5 hat and by adding \$12 worth of flowers and lace make it look so that any man would wear it was worth \$3.

**THE GOLD RUSH**  
 A thoughtful Swede is making a new brand of gold out of copper and aluminum. We have some smart guys in California who are doing better than that. They have made a lot of gold out of plate dirt.

**ROOM AND BATH**  
 Englishmen are going to spend \$5,000,000 to build a British Hollywood on the site of the Wembley exposition. In Hollywood proper it took more than that to put in the plumbing.

**HAVING BOOTS**  
 A Kansas man is still wearing a pair of rubber boots he bought twenty-seven years ago, but he insists that he always takes them off at night. Also he denies that he is a bootlegger.

**DOESN'T MEAN ANYTHING**  
 The doctors say that fat is largely a sign of laziness. That is why some thirty millionaires are hesitant about giving jobs to guys who cross the scales at more than 150 pounds.

**SOMETHING TO GO ON**  
 England's youngest prince won a dancing prize in Paris recently. This proving that even royalty may have its points. Anyhow, a prince with good legs should be able to support himself.

**THE TRAVELER**  
 A traffic expert says that hardly 4 percent of Americans do any real traveling. It is evident that packing the family into a Ford for a journey into the next State doesn't count. You have to go 1000 miles or so on the steam cars to get fixed.

**PEACHES IN VAUDEVILLE**  
 The Browning Peach is said to have a vaudeville contract calling for some \$200 a week. The girl can do nothing save a little bit of dancing and the stage is jammed with real talent in this line. Even vaudeville is wearying of timber that has no better recommendation than a notorious lawsuit.

**CHURCH CENSORSHIP**  
 The Japanese Diet is likely to pass the bill which calls for the placing of all religions under the control of the Minister of Education. Most worshippers are inclined to object to the measure, but strong levers for its adoption are being pulled. The Buddhists have the idea that too much recognition is given to Christianity, while the Christians feel that any censorship is apt to be harsh. Any measure to assume control of the people's faith is hardly to be considered progressive.

**MOONLIGHT OR MOONSHINE**  
 Judge Summerfield says that girls should not give serious attention to marriage proposals that are made in the moonlight. Diana inspires a love-sickness that needs the calm light of day to temper. Anyhow, moonlight proposals should not be delicately accepted until the next day. By that time both parties may know whether they were genuine. Perhaps the Judge is unduly critical of our moonlight amours. Proposals that come from bottled moonshine supply worse domestic perils.

**VOICE FROM TEXAS**  
 From Texas arises the voice of a former official in the Wilson Cabinet—one Albert Sidney Burleson—to say that Smith is the Democratic hope. The only difficult thing to arrange are the nomination and possibly the election. But for these trifling obstacles the future of the party is assured. Gen. Burleson is certain that Smith would carry all the Southern States, whether he be wet or dry. The curious thing is that Burleson used to be one of the McAdoo shouters.

**BRITISH FILMS**  
 There is still much contention in England over the government bill to increase British film production. The measure provides that this year at least 15 percent of all pictures exhibited in the empire shall be of English make. The proportion increases year by year until 1935, when at least one-quarter of all films shown shall be British. The campaign over the act is quite a warm one. The theater-owners all oppose the bill. They wish to be able to satisfy the popular demand for American pictures at their own pleasure. But the bill is pressed on patriotic grounds. It is claimed that many Hollywood films distort British character and history and hold up their people to derision. It may be said that they do not have to buy these pictures. There is no disposition in Hollywood to affront the British.

**THE NEW EUROPE**  
 Ten years have passed since the United States formally entered the World War, years marked by deeds of resplendent heroism and of dark depravity. Peoples have risen to new heights, and sunk to lower depths. Thrones have fallen and republics have been established on their ruins; and some of these republics, in turn, have succumbed to military dictatorships. No prophet foresaw the future. None foresees it today. Nations have been, and continue to be, straws driven before a strong wind of destiny.

We of this country have had world leadership thrust upon us. Russia, on the other hand, has lost its high place in the comity of nations. Germany has lost its colonies, but has won freedom from monarchical despotism. The once proud and powerful Austro-Hungarian empire has been dismembered and is now only a memory. Remnants of the former empire are now included in half a dozen states. France has regained her lost states of Alsace and Lorraine, but has failed to win in peace victories as notable as those in war. Poland and Bohemia have regained the independence that was lost to them for centuries. Turkey has ceased to exercise a directing influence on the destinies of Europe and is no longer the oppressor of subject peoples of other nationalities. Italy has risen to the proud position of a power of the first class, and Japan has risen to a like rank. During the same period Russia has gone mad, but has shown symptoms of a return to sanity.

A new political map of Europe has been made, and a new map of Asia is in the making. Greater changes in political boundaries have been made in the decade just closing than in the century preceding. What of the future? Will the new decade be one of peace or of war? If one can judge by the will of the western peoples, it will be one of peace, and the sacrifices made by those who were united ten years ago in the war to create millitism in Europe will not have been vain. At the time this editorial is being written the Council of the League of Nations is in session at Geneva. The president of the Council is Gustav Stresemann, German Foreign Minister, and the deliberations are conducted in the German language. At his right hand sits Chamberlain of England and at his left hand sits Brand of France. If this spectacle could have been envisaged ten years ago, how many of us would have asked, "Is it for this that we are going to war?"

But the spectacle augurs well for the coming decade. The European peoples recognize that the era is definitely ended when national security can be obtained through formidable armaments. International disputes are now argued out, not fought out. The European states must stand together, or fall separately.

This truth was recognized by a few ten years ago; but it required the World War to bring it home to the masses. The League of Nations may not always function better than a few, but it certainly functions better than the old habit of sacrificing the lives of millions of subjects when sovereigns disagreed.

No one mentally honest can object to the procedure by which the chairmanship of the Council of the League rotates among the members and the rule that makes the language of the people whose representative sits at the head of the Council table the language of the session.

Protestations of amity between the Germans and the French seem too marked to last. But that is because we insist on judging the future by the experiences of the past. We are prone to forget that the past never returns and that experience sometimes teaches a man, and sometimes makes a fool of him. The attitude of France toward Germany since the League's birth is a good example of this.

Protestations of amity between the Germans and the French seem too marked to last. But that is because we insist on judging the future by the experiences of the past. We are prone to forget that the past never returns and that experience sometimes teaches a man, and sometimes makes a fool of him. The attitude of France toward Germany since the League's birth is a good example of this.

There are still minorities in the countries which took part in the World War who would keep the old fires of hate still burning. But their number grows yearly less. A new generation is coming to the front that bases its future on industry, not on militarism; a generation that realizes even a successful war cannot repay the cost of blood and powder. The war debts have a sobering influence on national passion. When a war is now discussed the majority asks, "Who is going to pay for it?"

A Europe at peace is not a decadent Europe. Outside Russia, there is less extreme poverty and misery in Europe before the World War. The average wage is higher and in most countries the standard of living is higher than in 1914. Europe has not reached the American standard, but that is not because the peoples are going backward; it is because we are making such rapid strides in advance. Some envy is awakened when the comparative standard of living in America and Europe are compared; but it is doubtful whether there is a country in Middle or Western Europe that would go back to the conditions before 1914.

The new decade opens with a will to peace—"Peace on earth to men of good will."

**BEETHOVEN'S MESSAGE**  
 It has been truly inspiring and gratifying to note the whole-souled way in which the world responded to the message left by Ludwig van Beethoven a century after his death, which occurred on March 26, 1827. Civilization united in a most remarkable and highly appropriate commemoration of the life work of the great German composer. Not only the musical societies and the press of America and Europe observed the centenary, but wherever a piano, organ or viola was to be found players turned to the old Beethoven compositions, and in their profound harmonies found new meaning and new emotion.

For the music of Beethoven, written in many forms and almost with equal greatness whatever the form, finds instant response in the human breast, and it needed but the occasion to give it general expression, which it received during Beethoven's

## Nearing the Limit

(Copyright, 1927, by Public Ledger)

Week in a more universally concerted way than ever before.

The average layman says at classical music, but it is proof of the popularity of that of Beethoven that it sits him deeply and unfailingly, though that of some of the other old masters leaves him cold. The reason for this is that it possesses that humanity which many composers of high rank though their work has great merit, do not possess. A Beethoven sonata played in a mining camp produces a hush which in itself is approval, though noisy talk may continue while a lesser composition is being played and when jazz music only adds to the tumult.

The production of a great piece of music is a bid for immortality. In a large sense Beethoven is as much alive today as he was over 100 years ago when he composed his "Eroica Symphony," originally dedicated to Napoleon, but angrily taken away from him when he proclaimed himself Emperor of France. It was the funeral march from that great composition which was most generally featured in the Beethoven program of the centenary memorial. It is reported that more than 1,000,000 people stood in reverence when this appropriate composition was played by orchestras all over the country.

Art knows no country. It was not Beethoven, the German and sometime Austrian, who was honored by those commemorative exercises, but Beethoven, the mastery and immortal composer.

**PLANT EVERGREEN TREES**  
 At a recent meeting of the President's Association, Los Angeles, the members discussed the winter nakedness of Pershing Square trees. The barren aspect of the park seemed to them not to be in keeping with the spirit of eternal verdure which nature impresses upon the Southland and they addressed a letter on the subject to Van M. Griffith, president of the Park Commission. Four points brought to the attention of the Park Commission should be considered by all who are responsible for the planting and upkeep of both public and private grounds.

"Visitors to our city," the association states, "are amazed at the apparent lack of green trees in winter in this mild climate. California and Florida are the only two States in the country where semitropical plants will flourish. There are only two reasons for planting deciduous instead of semitropical trees in Southern California parks—one, for shade in the summer, the other to secure a bare playground in winter. When the other park trees were planted, such eastern favorites as maple and ash were more available than the broad-leaved evergreens."

In view of these facts the association suggests to Mr. Griffith that in every case of replacement or new planting in Pershing Square or other parks the trees or shrubs used be semitropical "for distinction and utility." Other States of the Union plant trees and shrubs that are stripped of their foliage by the frosty breath of November only because few perennial shade trees will live in climates that nature has chosen to adorn only with pine and spruce and fir and kindred coniferous evergreens.

Where the winter is but a continuance of summer with moods of rain and longer shadows, where the award is eternally verdant and the semblance of summer landscapes need never change, trees that stand naked and forlorn in winter break the true note of nature's harmonies. California's best-loved trees wear their green gowns twelve months in the year, and even the prized sycamores seem to understand its winter rudeness and twists itself into weird rheumatic shapes.

Here and there may be a window where the sun should enter in winter and friendly shade of the sycamores would be pleasant in summer, but few, indeed, are the places where the gaunt, lonely columns of eastern maple and ash and elm or western aspen and cottonwood are of any value except to some patriarch of the East who wants to see sometimes the leafy forms familiar to his childhood days.

The suggestion of the President's Association is excellent. It should be followed as a cardinal principle in planting. As the trees die which came from climates that robbed them of their foliage in winter, let them be replaced by semitropical varieties which will be embraced and nurtured by California sunshine in June and January alike.

**NEEDLESS CRUELTY**  
 This week we are concentrating on the theme of kindness to animals. As a reminder of what we should be to our fifty-one weeks the idea probably is good. That even staunch advocates of kindness to animals fall short of consistently following this program is a regrettable fact. Witness the prevailing barbarous custom of mutilating dogs by cropping their ears. Dog-fanciers and dog-lovers by the thousands would regard it a gross insult were they accused of being cruel, yet unhesitatingly they torture their canine subjects by slicing away a portion of their ears to conform the creatures to some warped sense of beauty. Bad vision and even total blindness among such maltreated animals is not uncommon. By cropping the ears one of the most delicate nerve centers in the body of the dog is destroyed. It invariably affects the entire nerve system of the animal and the shock and after-effects on the optical nerves are severe.

The fashion will pass in time, as did the one-time feminine penchant for punching holes in their own ears to wear earrings of the prevailing fashion. In the recent convention of the American Veterinary Medical Association at Portland, Or., it was declared that the practice of dog cropping involves unnecessary cruelty, is needless and contrary to veterinary ethics. While many kennel clubs in this country demand that a dog be cropped for entrance in a show, the English Kennel Club in Great Britain, one of the greatest sporting countries in the world, abolished the practice in 1898.

**PARKING PEDESTRIANS**  
 If a driver park his car for more than forty-five minutes in certain select zones he goes home with hydrolytics on his back wheel and a ticket for a personal interview with the judge. But pedestrians may park themselves anywhere without hindrance or control. They may stop on the busiest sidewalk in the city and visit with somebody from Iowa and hold up the surging tides of life without rebuke. They may plant themselves in doorways and block entrances and exit and hold up the ambitions of the world in an oblivious manner by their twaddle and receive no tag.

Others stop off the sidewalk at the corner and stand in the way of cars attempting to negotiate a turn without manslaughter and then sort at wheels that tread on their toes. A few intentionally saunter across an intersection and leer at drivers in a hurry to meet an important business engagement. If a bumper were to push any along in a delicate manner as an aid to progress litigations for thousands would ensue.

Do pedestrians possess all the rights? Is it a crime to own a car? If it were known that motorists have some rights, would there be as many strange faces in heaven next year? The motorist may be a demon from the mere fact that he drives a car; but he is not driven to desperate deeds at times by annoying, nagging pedestrians?

Not all drivers are hell-bent. Occasional ones are known to be gentle and soulful with noble aspirations and the law written on the tablets of their hearts. And sometimes it takes as much courage to drive a car as not to engage in wholesale massacre as it does to go over the top at the zero hour.

There are drivers whose necks could be wrung with benefit to the entire community. Conscious power beneath their feet has made them mad. On the other hand, there are pedestrians who are no angels, and they inspire all the accumulated ire of the race since Adam to vent itself on them.

The suggestion of the President's Association is excellent. It should be followed as a cardinal principle in planting. As the trees die which came from climates that robbed them of their foliage in winter, let them be replaced by semitropical varieties which will be embraced and nurtured by California sunshine in June and January alike.

## PEN POINTS

Motive that prompts most heavy purchases in good times: "I'll show 'em."

1890: Handsome is as handsome does. 1927: The woman who helps kill her husband is called a beauty on page one.

Every generation produces a "great critic" who is merely an impudent boy throwing rocks at a church.

The tragedy of age is the increasing number of things that won't afford a kick.

Situation in Europe. Victor: A poor man with a gun and jumpers. Loser: A placid man with a full purse.

Example of double jeopardy: Having both a wife and a 14-year-old daughter.

A representative government, through all storms and stress, continues loyally to represent the same old crowd.

Another thing that teaches a boy to stand firmly on his own feet is to have a relative poor as dirt.

No man is fit to judge his kind until he has been blindly jealous, mad with rage and weak with hunger.

Americanism: Feeling rich in possession of things on which there are yet 153 payments.

Things that "get on your nerves" indicate swell-head. The humble, expecting nothing, are resigned to everything.

The true test of personality is a bad bill when you have only \$1.53.

Fable: The son of the boss got promoted and everybody thought he deserved it.

She hasn't yet got boy on the brain if she doesn't hesitate to get spring onions on the breath.

There's one advantage in marrying a widow. The other guy's stomach got her experiments in cooking.

The most thrilling part of the story is where the music stops and the announcer begins.

Correct this sentence: "I cannot tell a lie," said the dentist; "it will hurt like thunder."

Only a crook can outwit a crook; an honest man will be beaten every time.

The people who do not know anything are the people who think they know so much they don't have to listen to other people.

## HUMANIZING BOOK KNOWLEDGE

BY FAITH HOLMES MYERS  
 "I've enlisted in the Navy and I want a book on seamanship to read when I'm at sea—maybe some history, too, so I can get acquainted with the countries as they used to be."  
 "I'm expecting my daughter from Holland and I haven't a book on Dutch customs for fifteen years, since I left her, a baby with her grandmother come to America to make my fortune. I am a mother that knows her own daughter, in fact I have not had time to learn about any young people. Can you give me a book that will tell me how to be the mother of a grown girl?"  
 "I am a business man that never had any school education, the seventh grade. I am making enough to mingle with the plebs, but I want to know how to talk better and write better. Can you help me out?"

These and scores of other human interest problems are brought to the Readers' Advisers' Desk of the Los Angeles Public Library. It is a hopeful sign of the times that people are turning to books for a way out of their difficulties. It is a promising sign of the advance of our democratic institutions that a public library is sought as "first aid" in practical, everyday affairs.

Establishment of a Readers' Advisers' Desk to give personal interviews and individual assistance to library patrons is part of the modern movement called "Adult Education" which is being carried out by educators, libraries, university extension courses and night schools. Since the completion of the new library building this service has been given to the central rounds at the desk marked "Readers' Advisers." To stop at this desk where Miss Louise Jones, principal of the department, and Miss Mary Alice Boyd, principal assistant, with their assistants reader extension courses and night schools. Since the completion of the new library building this service has been given to the central rounds at the desk marked "Readers' Advisers." To stop at this desk where Miss Louise Jones, principal of the department, and Miss Mary Alice Boyd, principal assistant, with their assistants reader extension courses and night schools.

"I've never read but two books in my life, I've been too busy making a living; but since I came to California I've begun to find out how much beauty there is in the world. I'm planting roses in my garden and taking trips to the mountains. I would like to plant some beautiful thoughts in my mind. Can you tell me what I ought to read?"  
 This man who had read "Call of the Wild" and "Treasure Island," was given a book list made out with great care, beginning with stories containing enough of adventure to hold his interest and leading up to simple theories of philosophy and beauty. He was delighted with the interest shown in his needs and was more than surprised to learn that no charge was made for this service. It is a part of the library's effort to connect books with people and to make its resources available and practical.

"My wife and I have money enough to do anything we like," came another call for help, "but we were never taught to mind our P's and Q's—talk prettily or to know which fork to use. We are getting discouraged. Could you give us a book on manners and something that will tell us how to write a good letter and how to talk better?"

Books were recommended on grammatical construction, on business correspondence and etiquette, followed by suggestions of interesting, well-written novels. Information was also given of night school classes.

In every case the inquirer is urged to return to the advisers' desk and report whether the books were found in the library and if they proved helpful, so that others might be suggested.

"If you could give me something that would help me to acquire the perfect manners of a high-class butler," said a pretty girl, half whimsically. She explained that the California lure of the outdoors had led her to desert school-teaching for tutoring in a wealthy family. The tutoring had begun at a beach town where the simple life was the order of the day. On moving to the town where the grandeur of a home administered by ten servants and three butlers proved quite overwhelming to this young girl, who knew her French and history better than etiquette of formality. Her ambition was to acquire as perfect manners as those of the butler who stood behind her chair.

The Adult Education Movement includes the aid given to the older boys and girls who leave the children's room of the library and find themselves at a loss to select books in the adult collection or to those other boys and girls who have never learned the joys of reading.

"I've never read a book through in my life," confessed a 15-year-old boy; "what would you suggest to start on?" A happy choice resulted in the reading of "The Fight of the Fire Crest," a story of the sailor journey from Gibraltar to New York. The boy became a persistent reader of travel, biography and history, finding a new world of adventure in books and a background for his studies that converted the dry bones of facts into a moving picture of human interest.

Nor is the assistance given at the desk confined to individual lists. Many general book lists are compiled by the various departments on fiction, biography, travel, religion, philosophy, science and sociology and given out here. Courses of reading arranged by the American Library Association called "Reading With a Purpose" are compiled in attractive little pamphlets which sell for 10 cents. These contain an introduction by a specialist with suggestion of titles in the adult collection or to those who have never learned the joys of reading.

The most thrilling part of the story is where the music stops and the announcer begins. Correct this sentence: "I cannot tell a lie," said the dentist; "it will hurt like thunder." Only a crook can outwit a crook; an honest man will be beaten every time. The people who do not know anything are the people who think they know so much they don't have to listen to other people.

## CHILDREN'S BOOKS TO BE SHOWN

Artistic Volumes from Many Lands Will be on Exhibition at Museum

Those who love the color and fantasy of life may enjoy the exhibition of children's books and illustrations which will be shown at the Los Angeles Museum during this month. The books come from many lands and are perhaps the most fully represented and the most charming of the typical "children's books" which are shown from time to time.

## LAWYERS HOLD CELEBRATION ON SIGNING OF BILL

Los Angeles attorneys returned yesterday from Sacramento with enthusiastic reports of the signing of the self-governing bill by Gov. Young. Senate Bill No. 1, introduced by Senators Waller and Nelson, makes every attorney in the State a member of the State Bar, accountable to a State Bar discipline committee subject to the approval of the State Supreme Court. The meeting was attended by heads of the bar associations of the State. Among those present were: Kenneth B. Campbell, president of the Los Angeles Bar Association; Eugene D. May, president of the San Diego Bar Association; and Thomas C. Ridgeway, president of the San Francisco Bar Association. A board of fifteen governors will have complete charge of all grievance committee matters, will handle all law examinations and pass on admissions. Four members will be appointed by Chief Justice Waite of the State Supreme Court at the end of July, and election of an additional member from each Congressional District will be arranged.

## Spring SILKS

—Note from Paris . . . "All along the Champs Elysees and through the Rue de la Paix one sees the elegant Parisienne gowning in soft clinging silks as the smart afternoon costume. Satins are much worn for evening wear, and moire is one of the most chic for street wear." Coulter's are famed for fine silks and here are a few of the newest!

Coulter's for Quality Silks Since 1878

## Genuine Crepe Elizabeth

The Real Import—\$5.00 Yard

—If you see other crepes bearing this name they are not the genuine imported crepe Elizabeth. And it comes in the most intriguing colors, also the effective and always serviceable black.

Also 40 Inches Wide

## Satin Georgettes

An Entirely New Crepe

—Introducing to you this lovely new fabric which adds to the lovely drapable suppleness of satin the sheerness of crepe Georgette. Charming when used as a transparent coat over printed frocks. 40-inches.

\$4.50 and \$5.00 yd.

## New "Ocean Sands"

An Exclusive Pebble Weave Silk

—The smartness of silks for sports wear. It simply clamors for love-ly drapable suppleness of satin the sheerness of crepe Georgette. Charming when used as a transparent coat over printed frocks. 40-inches wide.

\$4.00 yd.

## New Eyelet Georgette

For Spring Blouses

—This very effective Georgette crepe that comes in such adorable patterns, all in eyelet embroidery, in soft shades of green, rose, beige, etc., as well as in all black and black and white combinations that are so very smart for spring. Paris sponsors black and white, you know. 40 inches wide.

\$6.50 yd.

Very Good Values in Black Silks, many at reduced prices, are shown this week.

(Coulter's—Second Floor)

## Bed Lamps

\$3.00

—Like beautiful blossoms are the colors of these gay little bed lamps complete with socket and cord.

—This price is so very low for the quality and construction that go into these lamps.

—Dainty shades of rose, lavender, yellow, blue and pale green glorified with touches of gold lace and dainty with tiny rose buds.

(Gift Shop—Fourth Floor)

## Early American Pewter

—The vogue for Pewter is at its height just at present, and every housewife is hunting for old pewter to embellish her old chest of drawers or side table.

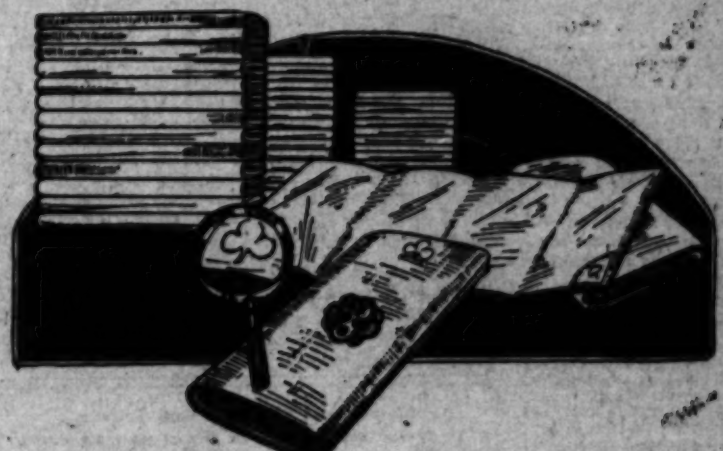

—Here in our Gift Shop on the Fourth Floor you'll find those adorable looking old fashioned pieces that are charming in design.

Quaint Pitchers . . . \$10.50

Round Trays . . . \$5.00

Low Candlesticks at \$6.50 the pair

(Coulter's—Fourth Floor)

Cloth 70x70 in. \$5.50 ea.

Cloth 70x88 in. \$6.85 ea.

Cloth 70x106 in. \$8.25 ea.

Napkins 21 1/2 x 21 1/2 in. \$6.85 dz.

—Beautiful patterns, snowy white with soft lustrous satiny sheen that makes them look so beautiful even after many trips to the laundry.

—These Irish Linens, Table cloth with matching napkins, need no introduction to the women who "know" linens. They long have had a reputation for excellency of grade and finish. Now priced within reach of every purse . . . at Coulter's, Monday.

(Coulter's—Second Floor)

Coulter's for Bedding Since 1878

# Our Stock of Kenwood's and St. Mary's Blankets Is Most Complete

—Through past experience we have found that the greatest percentage of the women who buy bedding prefer all wool blankets as they have found from experience that an all wool blanket gives warmth, yet is light in weight and is durable.

About 70% prefer solid colors or checks, and still another per cent wish the soft delicate shades that harmonize with decorations of the boudoir.

—In other words they call for Kenwood Blankets for top coverings and the fluffy St. Mary's Blankets for under the spread. Coulter's for the Best Bedding, always!

(Coulter's—Second Floor)

## "Buckskin Vellum"

A smart new paper at 35c a box

—Pound of this very attractive paper with vellum finish in ivory or white 72 sheets, 6 1/2 x 10 1/2 is only 35c a box. And two packages of envelopes for 35c.

(Coulter's—First Floor)

## Coulter's for Glove

Silk Vests, \$2.95

—Fine quality glove silk in a long full cut garment that is so much in demand these days. Made in bodice style and finished with neat picot edge. A garment well recommended for Easter gift giving. Sizes 36 to 42.

## "Shorts" "Habitee" or Stepins

Bloomers to Match \$3.95

—Full cut, well reinforced garments made with either regulation length or "shorts" Habitee or in the much wanted step-in style. All the new and late modes in silk underthings. Sizes 5, 6 and 7.

(Coulter's—Fourth Floor)

Three Steps to Beauty

## AUTO THIEVES CHEAT MINERS

Ring Hunted in Nevada's  
New Gold Camp

Fifty Stolen Cars Are Sold  
to Prospectors

Feeling Runs High Against  
Perpetrators

Department of Justice agents yesterday were sent to the new gold mining town of Weepah on reports that an organized gang of automobile thieves is making its headquarters there and disposing of numerous stolen cars to unsuspecting Nevada "gold rushers." Arrests in Weepah, Tonopah and Los Angeles are expected to result from the Federal agents' investigation, it is said.

The Federal grand jury at Tonopah is asserted to have made a thorough investigation into the activities of the automobile theft ring and a number of indictments are reported to have been returned.

Feeling against automobile thieves is said to be running high in the gold field following the arrival of Federal agents and other officers who have confiscated approximately fifty stolen cars that had been sold to miners and merchants in the camps.

An Goldfield, Nev., more than thirty automobiles stolen from Los Angeles motorists were recovered by Department of Justice agents and the theft bureau of the Automobile Club of Southern California. So thoroughly had the thieves disguised the stolen machines that a number of officials of the Nevada town were reported to have bought the cars and to have used them in their official business.

## STARS ALL LEND HAND IN BENEFIT

Stage and Screen Join  
in Annual N.Y.A. Variety  
Show

Stars, glittering constellations of them, appeared on the stage or set in the audience at the Fifth Annual N.Y.A. benefit performance, held at the Orpheum, Hillstreet and Pantages theatres, Saturday night. The benefit performance did not get under way until 10:30 after the regular evening shows had been given at the three variety houses.

N.Y.A. benefits were held in vaudeville houses in all leading cities of the country Saturday night. Entertainers were recruited from the current vaudeville bills, from stage attractions, from motion pictures, and from theatrical people at present in Los Angeles.

After appearing at one theater the entertainers made their rounds of the other two. As far as possible the bills were identical at the three vaudeville theaters.

Among those who scored at the performance were the Dumb Brothers in a burlesque of grand opera; Fanny Brice and Ted Doner, in a satire on motion-picture children; Fay Bainter in "The Girl Who Came to Supper"; and the third act of "The Enemy," Belle Baker in songs; James Gleason and Robert Armstrong from the "The Sea Hawk" company; Van and Schenck; Abe Lyman and his jazz band from the Uptown Theater; Eddie Peabody

## BURGLARS DUE FOR SURPRISE

Angeleno Prepares for Their Coming

Ready for Nocturnal Prowlers  
R. E. Lively and canine factor in arrangements for discouraging house-breakers.

When the achievements of great American inventors are set down in a book, honorable mention at least, will be accorded to R. E. Lively of 2631 South San Pedro street. He has invented a burglar alarm that is sufficiently all-own, but does not expect to be.

Not long ago Lively was the victim of a hold-up and still more recently his automobile was stolen. This set him to thinking seriously about the crime situation in Los Angeles and he resolved to do what he could to put an end to it, at least as far as he was concerned.

His determination was strengthened still further by a recent episode of burglaries and hold-ups in his neighborhood. Only a few weeks ago burglars broke into the house next door and took virtually everything but the doorknob.

The most important element in Lively's burglar alarm is a big dog with a set of extra strong teeth. The dog, he explained, is very hospitable in the daytime, but at night he attends strictly to business. The dog occupies a modest bungalow in the backyard, to which he is attached by a heavy chain. This chain is held in place by a steel pin which is attached to a stout cord in such a manner that a gentle tug will pull it upward, thus releasing the chain. Naturally this sets the dog free to exercise his own discretion about prowlers. The cord is run through a series of loops and small pulleys and extends into Lively's bedroom.

In addition Lively keeps a saved-off shotgun near his bed, for which he expects to reinforce the dog if the need arises.

Thirty million rabbit skins were imported into the United States last year to be made up into coats and suits, for articles of the most valuable of all the species is the pelt of the chinchilla rabbit, a breed which is said to have originated in France.

Among those working "overtime" to keep Hollywood employed is Tom J. Geraghty, who is now preparing a script for "The Return of the Cavalier," a picture which will be produced by Wallace Berry. Mr. Geraghty has just finished "The Big Show," "The Jockey," for "The Return of the Cavalier," a picture which will be produced by Wallace Berry. Mr. Geraghty has just finished "The Big Show," "The Jockey," for "The Return of the Cavalier," a picture which will be produced by Wallace Berry.

CANNON FINISHES SCRIPT  
Raymond Cannon, famed writer, has completed his script, "The Return of the Cavalier," which Metropolitan will produce with May Robson, Harrison Ford and Phyllis Haver.

## PALOMA SCHRAMM ELECTRIFIES CROWD

Vivid Playing Earns Pianist  
Oratorio: Oberholzer Leads  
Orchestra in Work

BY ISABEL MORSE JONES

Paloma Schramm-Baruch electrified the audience at the Philharmonic popular concert conducted by Emil Oberholzer, yesterday afternoon, by her splendid, vivid playing of the Greg Concerto in A minor. Hundreds of old friends who had heard her when she made her first phenomenal success at the age of 6, were there to greet her and rejoice with her over the hearty ovation she received. She was recalled many times and her reception left no doubt as to the welcome she would receive were she to return to the concert stage.

Her playing is at all times virile, colorful, interesting and marked by a strong character and musical purpose. Romance, poetry and a dramatic forcefulness as well as the play-spirit of Greg were expressed in her interpretation and the audience was intensely aware of her power. She is a sincere and devoted artist with a remarkable beauty of piano tone with which to express solid musicalship.

Conductor Oberholzer gave the well-loved Cesar Franck symphony, a symphonic poem by the American, Chadwick, and a Last Valse. The Cesar Franck is a mighty work for a popular concert but the peculiarly religious spirit of the work and all Franck made it appropriate for a Sunday program.

Oberholzer is a dynamic being on the conductor's stand and conducts with an intensity which brings an immediate emotional response. His sense of rhythm is full of contrast and smooth, attenuated phrasing. He brings its beauties very close to his listeners.

A special ethics committee will be headed by Joseph Ford, as chairman; Guyton H. Newlin, first-chairman; John O'Melveny, secretary; Theodore T. Hull and Mr. John Bily.

Officers of three important Bar Association committees will be announced by the president of the Los Angeles Bar Association, Kenneth B. Campbell, today.

The ethics committee will be headed by Joseph Ford, as chairman; Guyton H. Newlin, first-chairman; John O'Melveny, secretary; Theodore T. Hull and Mr. John Bily.

## Film Folk to be Guests at Uptown House

May McAvoy, who plays the role of a girl in "The Matinee Ladies," current at the Uptown; Malcolm McGregor, William Demarest and Heida Hopper will be introduced to the audience at the Uptown Theater tonight.

William Demarest has accepted the invitation to play the role of master of ceremonies for the "star night" program. Demarest will be assisted in this capacity by Abe Lyman and George Givot.

"Matinee Ladies" gives Miss McAvoy her first sophisticated role in pictures. Her personality is usually seen in roles which incline toward innocence and demureness.

William Demarest has accepted the invitation to play the role of master of ceremonies for the "star night" program. Demarest will be assisted in this capacity by Abe Lyman and George Givot.

'FIREBRAND' IS

RARE NOVELTY

Romantic Costume Comedy

Brilliant, Colorful

Excellent Production Wins

Surpassing Audience

Oatons Mark Reopening

of El Capitan

BY EDWIN SCHALLERT

For complete forgetfulness of mat-

ter-of-fact reality you can make no

better choice during forthcoming

days than to seek out "The Fire-

brand." This "comedy of the roman-

tic spirit" by Edwin Justus Mayer is

something divertingly different in

entertainment, and it is given as

plays should be given in Hollywood.

El Capitan Theater being the locale

of its presentation—a cast that is

both notable and interesting.

"The Firebrand" is a frivolous, but

not too frivolous impression of an

episode in the life of Benvenuto

Cellini, and if you have not already

learned of the little mood of make-

believe do not hesitate in making its

acquaintance. The fact that it is a

costume piece need not in the least

deter you, for the thought and

occasionally even the expression of

that thought are amazingly ultra.

George Bernard Shaw's "Cesar and

Cleopatra" might have set the pat-

tern, but it may be said in favor of

"The Firebrand" that as a historic

interpretation, it is much less won-

derful, even if perhaps just a shade less

brilliant.

However, that is not to be con-

strued as a criticism of the Edwin

Justus Mayer director. For this

dialogue is filled with wit, and there

is a flashing and clever, and there are

many skilful twists to the plot that

is thick with sixteen-century in-

trigue, but fashioned wholly for en-

joyment and laughter.

The opening of "The Firebrand"

surprised virtually any other that

has ever been held in Hollywood as

regards representative attendance. It

was both professional and social

premiere. In the professional group

among others were Douglas Fair-

banks and Mary Pickford, as well as

dozens of others prominent in film-

dom, and quite a few stage players

in addition.

Miss Hammond appeared at the

Morocco Theater yesterday afternoon,

doing the role of one of the numer-

ous neglected younger sisters who

invariably through the stage. The plot

was "The Patsy," and while it is

nothing startling, great or novel, it

pulls the curtain down back stage,

and it is funny enough in the

wise-cracking way to keep an

audience in abundant good humor

for several hours, even though its plot

and situations are trite and conven-

tional to the nth degree.

For those who have seen Miss Ham-

mond's efforts of several years ago

hereabouts there was distinct sur-

prise in the development of her talent.

This was more than once evidenced

in the enthusiastic applause that she

received. There were also many floral

tributes to mark her homecoming,

and the audience was in a mood to

welcome a speech from her, had there

been such apparent insistence on

pulling the curtain down back stage.

She did say a few words in apprecia-

tion of the reception tendered her at

the evening performance.

Miss Hammond has quite evident

Orpheum Presents Sure-Fire Bill

With Belle Baker and

Warwick as Stars

BY MARQUIS BUSHY

You're pretty sure to find what

you're looking for at the Orpheum

this week. Just like the familiar

boarding-house hash, there is a lit-

tle of this and some of that on the

current bill, and it is all extremely

easy to take.

From the one-act to closing there

are full moments. Well, that is,

not many.

Belle Baker with her songs, and

Robert Warwick, the stage and

screen actor, in a dramatic playlet,

# WORLD NEEDS NEW BIBLE, SAYS PASTOR IN SERMON

**Culbertson at KHJ Declares Book Should Contain Sifted Teachings of Thinkers**

The central figure in history's supreme drama, did not have a role predestined for Him but "toiled out His ideas of redemption and prayer," according to the opinion voiced yesterday by Dr. H. C. Culbertson of Plymouth Congregational church in an address from The Times broadcast station.

## THEOLOGY DEFIED TO KILL RELIGION

Defining religion as "man's devotion to his highest ideal," Rev. Culbertson declared in his address yesterday at the Hollywood Playhouse, said that religion is as permanent as man. He spoke in part as follows:

"Religion is the deliberate and voluntary devotion of one's mind, abilities and influence for the maintenance and advancement of the better things of life. It is the highest expression of theological beliefs which one must profess, not a set of rules which must be followed. It is, rather, an attitude toward life and conduct which must be adopted and maintained. It is seeking to do the right thing at the right time in the right way."

## CHRISTIANITY CALLED SCIENTIFIC RELIGION

Dr. E. B. Tupper preached yesterday at the First Baptist Church of Hollywood on "Evolutionary View of Christian Experience." He said in part:

"Most scientific is Christianity for the reason that always and everywhere it lays its hands on the experience of man and seeks to give it an objective basis. Its separation from other great faiths is most pronounced in its insistence upon fact and experience. While systems like Confucianism and Buddhism are constituted largely of abstract teachings, Christianity is a religion of facts. Its chief inspiration from certain supreme facts—as, for example, the birth, death, resurrection and ascension of its divine founder and the deep spiritual experiences of that founder's followers."

## DR. MAGNIN CITES NIETZSCHE FLAWS

Rabbi E. F. Magnin of Temple Beth El preached yesterday on "Nietzsche and Religion." He said in part:

"If a man must go to extremes in his philosophy, which personally I deplore, then give me the doctrine of Nietzsche and not that of the man who raises pity above power, that evaluates ten men above one. If the one is a world master and the other a slave, I choose the world master. Certainly the ten will not accede to this point of view. A life is a life and life is too precious to be wasted by war or slavery. Nietzsche's ideas are too often carried out and those of the Bible are ignored in real life. There is little fear lest the race become too weak through pity. There is too strong a sadistic and cruel streak in human nature to make it necessary or advisable to advocate it."

## DR. MAYER WINKLER TALKS ON FRIENDSHIP

Dr. Mayer Winkler, rabbi of Temple Sinai, preached yesterday on "Friendship." He said in part:

"The most beautiful word in our dictionary is friendship. The word misused and distorted word in human relationship. Friendship in its common connotation does not mean much to the craving soul because in most instances it ends with disappointment and disillusionment. But in its higher exemplification, as conceived by the sages, it is the core of human life."

## TELLS JEWS' IDEA OF TRUE PRAYER

"The Jewish Science Jewish" is the subject of an address given yesterday by Rabbi Herman Lissauer at Temple Emanuel. Dr. Lissauer said in part:

"The Jewish conception of prayer does not teach us to believe that we can force God to do our will by magical incantations or mystical formulae. It does not teach us that we can cure men of illness by one kind of prayer and toothache by another. The Jewish conception of prayer teaches us to make God's will our own, not to insist that God do our will. Certainly our bodies are not well unless our souls are whole, and many are the claims of faith cures which seem to be borne out by strong evidence. However, we believe that prayer operates primarily in the realm of the spirit, not the realm of the physical. Primarily, prayer is meant to bring refreshment to weary souls and to help us overcome temptations."

## BROTHERHOOD GIVES DINNER-DANCE TONIGHT

Jewish residents of Hollywood will be entertained tonight at a dinner-dance in the Greenwich Village Inn. The dance is being given under auspices of the Brotherhood of the Temple Israel. An elaborate entertainment program and a chicken dinner have been arranged.

## EXCUSE GIVEN BY PASTOR

Rev. L. H. Hill, pastor of the First Christian Church, gave an excuse for the failure of the church to hold a service last night. He said in part:

# GRAND JURY STARTS QUIZ ON ORRELL

**County Inquirers to Take Up Case of Broker Clerk's Asserted Shortage Today**

The county grand jury is scheduled to start its investigation this afternoon into the case of Schuyler D. Orrell, 35 years of age, cashier for E. F. Kuttner & Co., brokerage firm, who confessedly embezzled \$244,000, which he used to "play the market." The evidence is to be presented before the inquisitorial body by Dep. Dist. Atty. Murray.

Two brokers, O. H. Stratton and Fred C. Adams, through whom Orrell says he traded in losing a fortune of the company's funds, have been subpoenaed as witnesses for the prosecution and were instructed, Mr. Murray declared, to bring their books with them to show their transactions with Orrell.

Adams was subpoenaed by the Los Angeles Stock Exchange pending the grand jury investigation. Stratton is an unlicensed broker, but has account and that of Adams were ordered closed following the discovery of Orrell's defalcations.

# HEROINES OF GAS BLAST RECOVERING

**Two Women and Children Burned in Explosion Said to Have Chance to Live**

Two heroic women, Mrs. Mattie Weaver and her daughter, Mrs. Dimple Raville, and the latter's two young children, seriously burned Saturday night in a gas explosion at Mission Acres, were each reported yesterday as in fairly good condition by officials of General Hospital who asserted they stood a good chance to recover.

After the explosion, Mrs. Weaver, 44 years of age, smothered the blazing stove in her arms to prevent the destruction of her home at 1800 Chase street, and hurried it into the back yard, while Mrs. Raville, 31, carried her children, Clarence, 3, and Alta, 1, and her mother to her automobile and drove six miles to the L. S. Welbourn Hospital at Van Nuys, where they were given emergency treatment.

# Hollywood Post Will Entertain at Ritz Theater

Hollywood Post, American Legion, No. 43, will hold a meeting of members and an entertainment at the West Coast Ritz Theater, Wilshire and La Brea, tonight. The entertainment will consist of a feature preview of a motion picture and six acts of vaudeville with Nat "Hokum" Farman in charge.

# PLEAS WIN LENIENCY

Judge Admits Man Accused of Having Liquor Well Defended

William T. Murphy had three good defenses when he appeared before Municipal Judge Turney to answer to a charge of possessing liquor in his car, in the opinion of the magistrate, who freely admitted to the defendant that he had been influenced to leniency in his punishment because of the three who aided in the fight.

When Murphy came before Judge Turney, he was flanked on one side by City Public Defender Orfila. On the other side was his young wife and their 6-week-old baby. The three constituted Murphy's plea for mercy of the court.

No defense was offered by Murphy, but every minute of the time the officers were testifying Mrs. Murphy was pleading effectively for her husband by sincere and quiet sobbing. She was aided occasionally in her unobtrusive but closely observed defense plea, by the rather lusty lungs of the infant. Mr. Orfila did his share as one of the three defense counsel by a strong plea for leniency of the court in behalf of the wife and young ones.

"Well," remarked Judge Turney as he found the man guilty as charged, "you have a very poor case for a defense lawyer to handle but you have three very efficient lawyers on your side and I cannot see where society would benefit by your going to jail or in making your family suffer by your having to pay a heavy fine. I think your sentence can well be termed justice, even though it is also mercy."

# ALL-YEAR'S GOAL IN SIGHT BEACH LAND DEAL GIVEN APPROVAL

**Subscriptions of Day Swell Total by \$15,000; Forward Movement Backers Confident**

The subscriptions of \$500 or more added \$10,000 to the total of the \$120,000 budget of the All-Year Club and the Los Angeles Chamber of Commerce yesterday. Other subscribers of lesser amount but in proportion added a supplementary \$5513, making a total of \$125,513 in all.

# Nonsupport of Children Leads to Prison Term

Because Theodore Rosner, 2119 Brooklyn avenue, couldn't be bothered with the financial difficulties encountered by his estranged wife in her efforts properly to support their four children, he will be given a year in duration in which to think over the error of his ways. Rosner's term in jail was imposed by Municipal Judge George Bullock when she set aside a previous suspended sentence of one year on showing that he had failed to make the payments for the support of the children as he had been ordered when Municipal Judge Richardson granted him two years probation.

# FORGERY OF VETERAN'S PAY CHECK CHARGED

Charged with having forged a government war veteran's compensation check for \$100, Walter Monroe, alias Walter Barton, was arrested yesterday by secret-service agents and lodged in the County Jail. Monroe is said to have been a former resident at the Bawle Soldiers' Home. He will be arraigned today before United States Commissioner Reed.

# Father and Son to Face Court Today in Theft

**Pair Accused of Taking Brake Linings Valued at More Than \$5000**

With the arraignment for entry of plea today in Superior Judge Edmunds' court of A. E. Clow and Elton Clow, his son, the District Attorney's office will begin the prosecution of the father and son, said to be members of a safe-breaking gang.

The two were arrested in Oklahoma and recently brought here for trial. In addition Valentine Nichols was arrested in Chicago and is being returned here for trial.

# YOUTHFUL BUILDER FACES COURT TODAY

W. M. Phillip, 25-year-old building contractor and promoter who was recently returned here from San Francisco to answer charges of embezzlement involving almost \$10,000, today will appear before Municipal Judge Wilson for preliminary examination. Phillip is charged with misappropriating money given him by Katherine Hindman and W. Hindman for investment in his building projects. Dep. Dist. Atty. Busch charges the defendant used the money for his own purposes.

# EMPLOYEES ARRESTED IN THEFT CASE

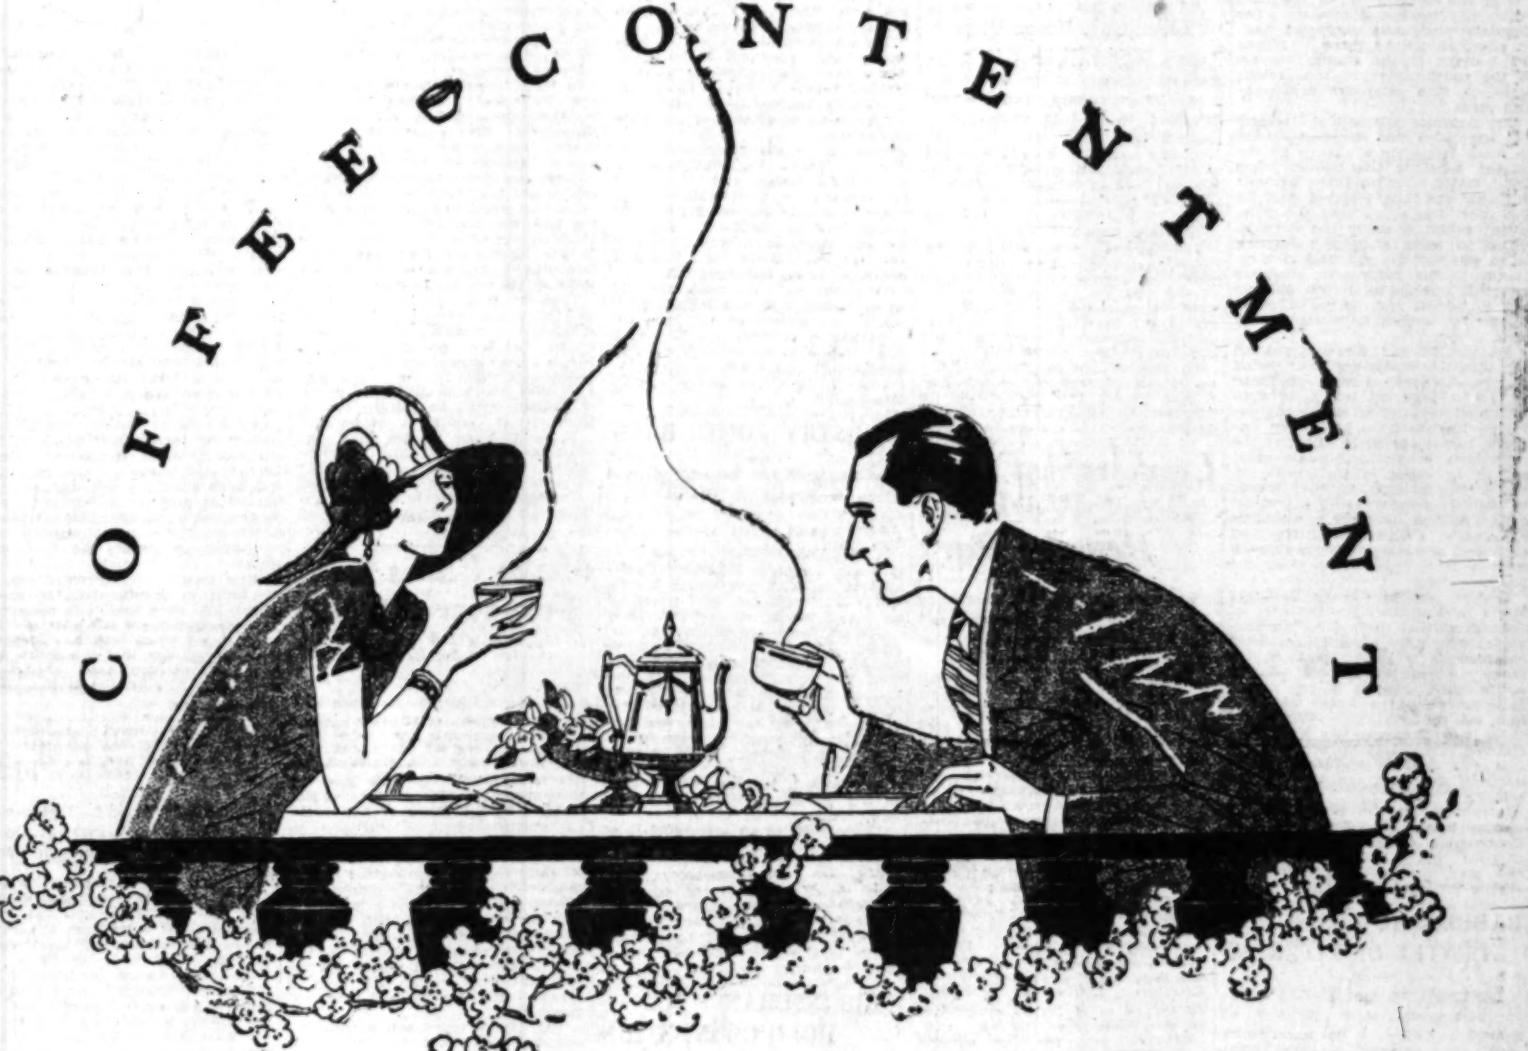

**Pair Accused of Taking Brake Linings Valued at More Than \$5000**

Asserted systematic thefts of automobile brake lining valued at more than \$5000 from the E. M. Smith "Emaco" Brake Lining Company of 631 Clarence street, according to the police, came to an end yesterday with the arrests of Felix Martin, 31 years of age, service station proprietor of 1333 Central avenue, and Harry Krause, 26, of 934 Boyle avenue.

The arrests were made by Newton street police, who stated they were the result of several months' investigation, following the reports of Donald Weather, manager of the Downey branch of the brake-lining company, that quantities of the brake lining were disappearing from the factory at various times.

# STILLA CONTINUED

Continuing their drive against asserted manufacturers of illicit liquor, Federal prohibition agents under Assistant Administrator Benedict Sunday raided a house near Eighty-fourth and Harvard and confiscated two fifty-two gallon stills. Charles McGuff, said to be the owner of the stills, was turned over to police to face a charge of Wright Act violation.

## Inviting as the flowers of spring

Spring calls to the high road, with its perfume of orchard and garden! When the ride is over, tired muscles say r-e-l-a-x, take your ease over a cup of M-J-B.

Cup of perfect contentment! Solace for the soul and refreshing stimulation for the body! And its aroma is as inviting as the flowers of spring!

And it is all because of a flavor—a rich, full-bodied flavor that gives you the cheering warmth, the friendship you expect from coffee. Moreover, this flavor of M-J-B is constant. It is not a will-o'-the-wisp—here today and gone tomorrow. It's always on tap—always in your cup, no matter how you make your coffee, no matter how you like to drink it: strong, medium or mild.

It is gratifying to M-J-B to feel that among its staunchest friends are those who have "grown up" with it—those who feel that, of all coffees past and present, M-J-B can always be relied upon for the same rich, characteristic flavor—strength that has made M-J-B a buy-word for coffee contentment through the passing years!

That's why we say:

# M-J-B

## meets every taste in Coffee

Tree Tea Orange Pekoe (Black) or Japan (Green) Also Meets Every Taste in Tea

—the dotted line shows how much less of M-J-B you can use to each cup because of its concentrated strength and richness

# Real economy to tint and dye with TINTS

## NEWS OF SOUTHERN CALIFORNIA

## AGREE TO LOW TRACTION FARE

Glendale and Burbank in Favor of Trial

Maintain Low Rate Will Increase Business

Plan to Remain in Effect Ninety Days

GLENDAL, April 3.—Officials of Glendale and Burbank have agreed unanimously to accept the low fare schedule on the Glendale-Burbank line of the Pacific Electric, as put forward before the State Railroad Commission at the hearing on the railway's supplemental application for a change in rates held in Los Angeles last Wednesday.

City Attorney Ray L. Morrow, Counselman W. F. Tower, President William McMillan of the Glendale Realty Board and Secretary L. H. Myers of the Chamber of Commerce represented Glendale and Burbank was represented by City Attorney James H. Mitchell and members of the Board of City Trustees and the Chamber of Commerce.

Only one modification in the plan, which has become known as the "Glendale plan," was suggested that an effort should be made to secure the consent of the Pacific Electric to the continuation of the present rates on the sixty-day commutation book.

City Attorney Mitchell of Burbank also advocated that an effort should be made to secure a change in the present schedule that would bring about faster running time between Burbank and Los Angeles, and he also took the stand that the ninety-day period is really too short in which to reach a definite decision as to whether the proposed rate reduction would return an adequate operating revenue to the Pacific Electric to permit the company to say whether it should be made permanent or not.

Attorney Morrow, however, pointed out that the ninety-day trial period could be extended, as it has not been set as an arbitrary length of time by which the future course of the Pacific Electric is to be shaped entirely. It was agreed by those at the conference that the proposed rates should be made in both cities to advise the patrons of the railway to use the service to the greatest degree possible, in order to convince the Pacific Electric executives that sufficient operating revenue can be derived from this territory at the proposed lower rates.

It was pointed out by Secretary Myers of the Chamber of Commerce that the Glendale-Burbank line, which has always been regarded as a paying part of the railway system, should not be included with the rest of the system in considering the proposed rates and low but that the citizens of these two municipalities should be charged rates that would result in increased revenue produced, instead of from the standpoint of the system as a whole.

Attorney Morrow said the two cities will appear before the State Railroad Commission in Los Angeles Tuesday to signify their adherence to the plan for the ninety-day trial of the proposed lower fare.

## RABBIT SHOW TO BE CENTER OF INTEREST

LANKERSHIM, April 3.—The rapidly developing rabbit industry of Southern California is manifesting such keen interest in the forthcoming show to be staged at Lankershim, that a paying part of the show is being given to the rabbit breeders' association. The show, which is being held at the Lankershim public playground, is being held in the most sympathetic consideration with the rabbit breeders' association, and the department budget is being prepared for submission to the commission.

## PIONEERS CELEBRATE

Two Days Set Apart for Home Comings in Kings County

HANFORD, April 3.—Great interest is being evidenced here in the home coming and pioneer day announced by the Board of Trustees of the city of this city on May 6, on the occasion of the fiftieth anniversary of the founding of the city.

It is proposed to send invitations to all former residents of Hanford all over the country and already many of such are being handed to the Board of Trade.

Another pioneer event is announced for the same time, the Traver day reunion and picnic, on April 24, which drew a large attendance annually to that little town, some fifteen miles from here. Traver and Hanford were business rivals for the trade of Western Tulare county in the early days and Traver had a little the best of it for a while, but the city of Hanford today is only a village, while Hanford continued to grow and flourish and its citizens are out in large numbers each year to the Traver celebration.

## MARINE IS AUTO VICTIM

Girl Companion Badly Injured as Machine Jumps From Highway and Turns Turtle

SAN DIEGO, April 3.—Miss Gladys L. Stromberg of Mission Beach is in the Scripps Memorial Hospital at La Jolla with a broken collar bone and other injuries and Harry L. Wainman, corporal from the marine base, is dead as a result of an automobile accident here last night. Wainman was crushed to death beneath his machine when it plunged 150 feet down a steep embankment that flanks the highway.

According to Henry Churchman, immediately by several other car accident in charge of the La Jolla police substation, who went to the scene of the wreck immediately after it occurred, the car in which Wainman and Miss Stromberg were riding, was traveling toward San Diego at a high rate of speed. As the sharp curve just opposite the observatory, the car could not make the turn. It plunged from the highway, careening more than 125 feet in a diagonal course from the highway to turn over four or five times when it came to a steep embankment. It landed on a rocky ledge, and the car was instantly killed, Churchman said. Both occupants were thrown clear of the car.

The wreck was discovered almost

# TO VOTE BONDS FOR EDUCATION

Schools of Alhambra Region May Hit Snags

Plan New Building Additions

Civic Bodies and Clubs Favor Plan

ALHAMBRA, April 3.—Two bond issues, totaling \$1,000,000, are to be voted today by voters of the Alhambra and high school districts. The first issue is for a new high school to be built in the eastern section of the city, and the second is for a new high school to be built in the western section of the city.

The proposed new high school in the eastern section of the city is to be built on a site of about twenty acres, and is to be a modern building of about 100,000 square feet. The new high school in the western section of the city is to be built on a site of about ten acres, and is to be a modern building of about 50,000 square feet.

The total bonding capacity of the Alhambra and high school districts is \$1,000,000. The new high schools are to be built at a cost of about \$100,000 each. The new high schools are to be built at a cost of about \$100,000 each.

Rotary Official Nears End of Term

UNITED UNITY

As head of the district, he is expected to visit the district during the month of April. He is expected to visit the district during the month of April.

# GUNS TO BE MOUNTED ON CARS

Fast Talkers to Argue With Bank Bandits

Police Learn Trick of Run Runners

Detective Lieutenants Stiles, Boyer and Erickson (in rear) demonstrating use of machine gun.

The police are planning to mount machine guns on cars to combat the fast talkers and bank bandits. The police are planning to mount machine guns on cars to combat the fast talkers and bank bandits.

President Garfield, With 125 Passengers and Rich Cargo, Scorched at Sea

The President Garfield, Dollar Line around-the-world steamer, arrived here yesterday a day ahead of schedule, having made extra speed for the purpose of repairing damages caused by fire, which broke out March 26, when the vessel was off Cape Malo, a day this side of Panama.

Capt. L. H. Westdahl, marine superintendent of the line, came from San Francisco to survey the steamer's condition. The President Garfield is a 12,000-ton steamer, built in 1914.

Circus Week Opens Season for Lemonade

Pink lemonade and peanuts again will be in evidence in Los Angeles today. The Al O. Barnes Circus begins an engagement of a week at the showgrounds at Washington and Hill streets.

Learning Urge Universal

Survey at University Shows Persons in All Walks of Life Seeking Higher Education

Who goes to college today? A survey just completed at the University of California at Los Angeles by Professor Earl J. Miller, dean of men, shows that the butcher, the baker and the candlestick maker, in addition to student bankers, brokers, bell boys and dishwashers are all going in for higher education in a true democracy of learning.

Among the more unusual occupations listed by the students were: "I am a student," "I am a student," "I am a student." The survey showed that 128 of the men students enrolled in the University are earning at least \$100 a month.

# PLIGHT LAID TO FLORIDA SLUMP

Man Held Here on Forgery Charge Tells Troubles

Building Failure Caused Accusation, He Says

Was Official of Corporation Which Suffered Losses

Resentment over the failure of their apartment project to materialize when the Florida land boom was punctured last year was given yesterday by Kenneth G. Coulter, architect living at 1023 West Twenty-third street, now occupying a County Jail cell awaiting extradition proceedings, as the cause of his arrest on charges of forgery preferred by the largest stockholder of the Florida Apartment Building Co., a \$500,000 corporation of Bartow, Fla.

Two months ago when I was arrested on charges of forgery, I was in a state of mind that I was going to commit suicide. I was in a state of mind that I was going to commit suicide.

Prisoner Was Officer

Coulter was secretary and treasurer of the Florida Apartment Building Co., and was in charge of the company's affairs. He was in charge of the company's affairs.

Associate Killed

In July, 1926, I resigned as a director and secretary-treasurer of the corporation and started in my car with Dr. Waldo for Los Angeles. I was in a car with Dr. Waldo for Los Angeles.

Collegiate Bandits Rob Car Crew

Three college "cutups" one armed with a water pistol and openly boastful of his deception, last night held the crew of a car at Monroe and North New Hampshire streets and robbed the conductor, C. R. Gregory, 2224 West thirty-eighth street, of \$22 and a watch, and the motorman, E. V. Todd, 5009 South San Pedro street, of \$12 and a watch.

Singer Given Probation on Theft Charge

"Another chance" was granted Howell Long, 17-year-old, baritone singer, by Judge Archibald of Juvenile Court when Long appeared before him for the second time on charges of stealing automobiles.

Fainting Spell Lands Woman in County Jail

A woman who, police say, gave the names of Joan L. Walker and Mrs. Lillian Walker, who were in a rooming house at 1023 West Twenty-third street, fainted and was taken to the county jail.

Wedding to Crown Actress' Romance

A romance that began when Kathleen O'Connell, a young actress, met a man named Fred Dattig, 1715 Sunset Boulevard, and ended in a wedding ceremony.

# THE WATCHMAN

Trend of Political Thought and Action

BY THE EDITOR

Three women have qualified as candidates for the City Council and their names will appear on the May 3 city primary election ballot.

California Association, No. 2, National Association of Stationary Engineers, with about 700 members in Los Angeles, has endorsed John Toppan for Councilman in the Fifth District, according to an announcement yesterday by L. B. Brown, president of the association.

Conservationists to Urge New Game Bill

Harold S. Ryerson, vice president of the Conservation Association of Southern California, left for Sacramento last night to urge the passage of the new game law.

Travelers Select Officers for Year

Los Angeles Post, Travelers' Protective Association, has selected the following officers for the year: Ralph Knutson, president; H. W. Hanna, L. D. Dennis, W. P. Dunlap, T. E. Harvey, J. W. Price, vice-presidents; G. W. Curran, secretary-treasurer; William Zeigler, E. O. McCann, Charles Knutson, Frank Foster, Charles Williams, Milo Cook and L. E. Orr, directors.

JOHNSTON McCULLEY TO WRITE FOR FILMS

Armed with a year's contract to write original stories for Metro-Goldwyn-Mayer, Johnston McCulley, noted writer and playwright, and former Los Angeles newspaper man, reached this city yesterday afternoon aboard the California Limited of the Santa Fe.

# The Safest Way to Buy Real Estate

Good investments in real estate are by no means limited to any one area, or to any one class of property. Only a complete survey of the whole active market can determine the best opportunities. And for that purpose the Real Estate columns of Times Want Ads are indispensable. Here is presented a hand-picked list of properties reaching from the Colorado River to the Pacific Ocean and ranging from huge tracts of land to small home-sites—all conveniently grouped—and comprising a more complete listing than all other Los Angeles newspapers combined!
